for you to use, Marvin!

Dear Kruses,

You don't know how much your son T.E. meant to us in California -- we leaned on him when ever we could. We had a rather good time in CALIF. but oh! the driving -- it was a nightmare. But we came out without a scratch.

Before Christmas we talked about Uncle Arthur and Etheldeen -- but just before we left two weeks ago, I said Tommy let's phone Etheldeen. We three (of us) were invited for a visit -- had good time. Then I phoned Arthur and talked to both of them. They came up the day before we left Temple City and we all had a big ~~meat~~ meal at Etheldeans. They are very smart people and don't stop to talk of small talk. They are worth all your time you can afford to write them --- they are interested in all of Mary's family. I think you should urge Mary to Fly out to Los Angeles some Friday afternoon when Tommy does not have to go for Reserves. He is near the Big Airport -- it is no trick for him to drive her to Arthur's, near San Diego -- or to Etheldeans. Arthur's wife is thin but weiry and able to drive. They will never come back to Iowa for there is not much interest any more. Tennette might as well fly to Calif with Mary.

Tommy warned us to read up on the STARS astrology etc before we met them and sure enough they let the moon and stars control their lives. If this note makes sense send it on to Dorothy in Connecticut. wish now I had made a carbon for Alice.

Do write to these good people. The world spins around every 24 hours. Slow down and live.
