Friday Morning

Greetings, Time Marches On!

Helen ~~Law~~^{Lee} is reach^{ing} out there for an education -- we are so glad Ralph and Alice took time to enroll her in a central school where the teachers lay out extra work for her. She may amount to somebody. Keep her in school. John Chalmers in S.C. said ~~in~~ at Christmas time, we should have looked up PETER. What is that fellow up to? So glad you and Richard could have a Holiday together. Kathy Marie and Mike ~~Sch~~ Hurstein are both married. Mike is at White Sands in New Mexico -- we may see him in March.

we like California but oh it is such a big state, from corner to corner is 800 miles distance. Since the Energy Crunch has hit us, we do not think we will get up to ORIN'S town. and we have many friends up that way. Tommy and ^{we} us would like to go down to see Uncle Arthur. Do you have an address on Etheldeen?

That Bernice Lynch sure can write good letters -- her furnace blasts along all day long. We are paying 26¢ for fuel ~~and~~ oil in George, Iowa.

You had better move down stairs with Alice and Ralph -- we have been sleeping on a hide-a-bed here all winter, not bad.

Don't you think Sam and Jessie have a nice apartment? Much better than we could afford. T. E. Kruse lives in a good place and we sure lean on Tommy. He is a great fellow and I hope he avoids the Ladies until he is forty. He is a champion bridge player.

We are going to Long Beach Saturday and Sunday and will see Frances Hillhouse Baisinger and her friends -- they were in George, Iowa last summer. Then Sunday Pm. we ~~will~~ will call on Japanese friends -- she is from Tokyo, and her father and mother guided us about Tokyo. She and her husband were in Japan for Christmas.

Let this be enough -- Rest Yourself.

Lewey and Margaret

P.S. We miss DAVE's letters.
