Mr. + Mrs Ralph Johnson
3161 N. Buttern St.
Milwaukee
Wisc. 53212

Dearest Alice,

April 30, 1987

I trust Ralph is still mending well at this point and very sorry to hear about the several problems. It sounds like retirement from administration and then into nursing. He is sure lucky to have you as his Nightingale.

It was good to hear that your Darling Daughter is "launching" her career as planned. She was one of the most delightful young people I have ever met and hope that she finds some boy as fantastic as she is.

John + Robin graduate from Medical school May 23. They had a healthy baby boy one month ago. Dewey-Bonnie and my daughter Deb will be here for about one week to help us celebrate. Anne is still in Denmark dancing. Deborah lives in Manhattan, taking acting classes and has done "Miami Vice" and Beverly Hills Cop II. as well as current small part in a mid day soap opera. Jim is straight A as junior in H.S. He lives with Lucy and me. Jane has moved to Boulder Colo. and recently remarried.

I work less than $\frac{1}{2}$ time by choice and play the rest of the time. I recently bicycle toured the San Juan Islands near Seattle for one week and next week begin a 10 day trip thru Grand Canyon by river raft. Lucy works pretty much full time and seems to be traveling (medical) more lately. Her M.S. (Multiple Sclerosis) is pretty much in remission at

this time.

As you can see with having healthy, happy kids + grand kid (Daniel) and with tennis, skiing, bicycling etc. and having a wonderful wife — I am counting my blessings. They are great and wonderful!

I am anxious to hear that Ralph's problems are behind him — I look forward to your next news letter.

Love
John

Come see us!
