Monday noon -

Dear Dorothy -

More rain but no rest! Canned some more corn Sat. A. M. & Helen called at noon that she & Stuart would be down after supper & spend Sunday with us so we cleaned upstairs & Jo & Amy came down that evening to eat melons & they were all here yesterday for a big dinner. It rained Sat. night & yesterday so we got in a good visit & Stuart's left this forenoon after putting a good plywood top on the card table! It's good now for another 20 years!

Is the Lord Baltimore writing paper yours? Margaret left the Air Mail paper & I don't know whether it's all hers or part yours? She left several little things & as soon as I hear from you I'll send whatever you each left.

Mother wasn't able to come down & I'm glad she didn't as it's rained all the time.

We are getting grapes this P.M. & I think I'll can the juice without sugar.

Grandma has spent all the daytime over here & has to go to town this P.M.

I wish you had a load of these melons up there - they are pretty good again & lots of them!

Betty Giglio went to Maryville Tues. morning. Haven't seen Clyde since Thurs. evening.

Melvin Cox & Lyndon Knight were arrested Friday night for stealing tires - one from Mr. Fullerton's old car. Lyndon is supposed to be innocent but I expect Melvin will have to serve time as it's his 2nd offense. Such a town!

I hope it clears off pretty soon - I haven't washed yet & I need to.

Miss Bacon has invited the 4 Dr. girls to go home with her this week end so I must get Alice's P.J's made.

I suppose you have your schedule now? Did you decide on Home Ec.? I think that is O. K. & trust you can go ahead & finish Alice's [illegible] typing, Shorthand, Book-keeping & English - no classes to King or Durham either - She should be able to get a job next summer with 2 yrs. typing. She & Amah Lou will want in an apt. with you I expect! What will Dad do?! Anxious to hear what Margaret finds.

How does the "up & down" go? What are your hours? That was what Ruth did the first year she was there but it took her evenings.

Sun shining right now but lot of clouds hanging around & may rain again.

Did you leave white anklets, white briefs? Lip stick? writing paper? Helen took facing off your blue skirt & I'll hem that up for you -

Slick Fleke's have a young son - arrived Thurs. evening. Haven't got any blank checks yet but will send some -

Must get busy. Did you get a sheet? Do you want this short sleeved sweater? Can you find any beige material for a dickey? I'll try to make the aqua one right away -

Love - Mom

Got your letter. Write again. Early
