THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2 inch tires front and rear, for every day in the year has no equal as a family car. Just as regular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

M. E. Church Notes

The rough roads lessened somewhat the attendance upon the Sunday services. At both the morning and afternoon services we preached on the theme, "The Call of the Hills." In the evening we discussed the problem of Prejudice in the human mind. One of the chief hindrances to human progress is the fact of prejudice in human life. Our thinking is crooked and twisted. Our personal feelings and ideas are idealized more than truth. Oftentimes we are unaware of the existence of prejudice in our minds, but it seems to be a universal affliction. No one is entirely free from it. It may be due to ignorance, moral weakness or psychological complexes surrounded by emotional fringes; but whatever the cause or causes, the open mind can do much to eliminate it. If prejudice were done away all our social and moral problems which today baffle our wisest leaders would solve themselves. Tolerance would be more prevalent, love and brotherhood more commonly found.

Mrs. Williams from Des Moines is scheduled to meet this week with the local branch of the W. H. M. S. for an all day meeting at the church. We are much gratified with the splendid undertakings of our local society. The interests and causes which the women of this organization are sponsoring deserve the sympathy and support of us all.

The sermon themes for next Sunday will be, for the morning and afternoon services, "The Garden of Eden; Where the Milestones Begin," and in the evening, "Last Things: Where the Milestones End." With regard to the method of origins and destinies there is evidently much prejudice, thinking or rather lack of thinking. Some confuse the method of how we came to be living with the fact that we do live. It is facts with which we are concerned, facts which are established by scientific proof and which accord with human experience and reason. All we can hope to do is to interpret from our viewpoint these important themes, mayhap we may help some to whom these subjects have given difficulty. We particularly urge you to bring the young folks to the Sunday School. You owe it to them. Neglect may cause regret in later years. The man who most loves his children is he who

leads them in the way of Divine Grace. Better than sending the children to church is bringing them. You will always receive a welcome with us.

C. H. Marple, Minister.

Those present were: Rev. and Mrs. Ball, Mr. and Mrs. Earl Humphrey and daughter, Ruby, Mr. and Mrs. M. B. Austin, Mr. and Mrs. S. H. James and son, Clarence, Mr. and Mrs. Stanley Austin and family, Mr. and Mrs. John McHenry and daughter, Ruth, Mrs. Frank Crouch, Mrs. John Crouh and son, Mr. and Mrs. Homer Stuart and family, Ruby Trullinger, Mayo McHenry, Vincent Barnett, Everett Pratt and Mr. and Mrs. Miles Brown.

Epworth League Notes
Epworth League met at 6:45 Sunday evening with Thelma Main, leader. The lesson was very interesting. Several of the Leaguers gave short talks on the subject. We were favored with some special music. Clifford Main is leader for Sunday evening and we know we will have another splendid meeting. We want you all to come and enjoy the evening with us.

The Horse-Shoe Magnet

Every boy has some time in his life witnessed the power of the horse-shoe magnet as it has been brought in proximity with a mass of iron filings. It was very plain to them that this magnet sent out lines of force which drew the filings to it and lined them up in the direction of those lines of force. In the immediate vicinity of the magnet these lines of force are strongest and are called the magnetic field.

Now inventors have discovered that they can make a much stronger magnet and consequently a much stronger magnetic field by winding copper wire around a soft iron core and then passing direct current through this winding. This kind of magnet is called an Electro-magnet. Now in the case of the horse-shoe magnet and the electro-magnet as well, if a loop or coil of wire is moved through the magnetic field in a direction so as to cut through the lines of force which make up the field, a current of electricity is generated in the wire and by increasing the number of magnets and the coils or loops which cut through them electricity of any desired strength and value can be generated, and upon this simple principle all the electric machines are built.

How it is sent out from the power plant is another interesting story. Watch for it.

The Redding boys put up a good defensive game and were also able to pass the ball for easy baskets quite frequently. Blockton was shut out during the last half entirely except for one free basket. County newspapers comprise the biggest trust on earth, declares an editor in another state. That's true. The country newspaper trusts everybody, gets cussed for trusting, mistrusted for cussing, and when it busts for trusting, gets cussed for busting. THE FRIENDLINESS OF MODERN BANKING

By WILLIAM E. KNOX
President American Bankers Association

Until a few years ago savings banks were extremely austere institutions. They were feared to do the kindest thing in the world, that is, to take care of the savings of poor people, but they did it in a most repellent way. They did not extend to their banking business any of the courtesies or any of the amenities of life.

They simply took the money, did the depositing in favor of taking it, and gave it back to him when he wanted it. And then they considered their full duty done. The depositor and clerk treated the depositor as though they were entirely beneath them. I myself, heard a depositor, an old Irishwoman, say to a teller who had been snappish with her, "Then you'd better keep a civil tongue in your head. It is the likes of me that keeps the likes of you in your place." In that brief and caustic and well-deserved comment she had summed up the whole situation in a nutshell.

There was nothing warm, nothing cordial, but as the years went by the banks changed. The windows were made brighter, the people smiling, the clerks more friendly, and there came men so close to the people that they began to tell him their personal affairs and ask for his advice. And of late years the banks, too, have been stressed the human element. They have struck a better way of approaching people. They have taken steps, for instance, to try to get as close as they can to the foreign element. This is one of the great problems in all the large manufacturing and business centers. A great mass of foreigners came here and got together in groups, but they do not get any real touch of Americanism. They are just as Jewish and Italian as they were twenty years ago. They are just as Italian as they were the day they came, because, nobody appears to take any particular interest in them. But when an institution like a savings bank begins to take an interest in the problems of the people, to let them feel that here is a group of people engaged in a business that is willing to listen to them, their troubles, their trials, is willing to advise them, willing to steer them straight, willing to be sort of Big Brother to them, I do not think there is any better Americanization work than that being done.

That is the kind of work the progressive savings bank is starting on, telling people that if they will come to them with their troubles they will be glad to give them the best disinterested advice, to do things for them free, and otherwise they would be charged for by somebody. They are willing to advise them when they get a more money than the savings bank can take care of, what they can invest it in, or in some cases what not to invest it in. If the savings and commercial banks all over the country adopt that particular attitude toward our foreign fellow-citizens, it will give them an entirely different view of Americanism. It is this changed attitude that has resulted in the tremendous growth of deposits that have taken place in the savings banks since the war. There has been a different spirit breathed into the relations between the depositor and the men on the other side of the counter.

Going Some!

180,000 miles per second is "going some," and that is the speed of the electric current as it rushes to serve you when you turn the switch which closes the circuit, permitting it to work through the lamp, motor or such other devices as invention has provided for our use.

As marvelous as this great speed may be, it is no greater than our desire to be of real service in our field of endeavor and our wish is only that we could serve you as instantaneously, as does the electrical power itself, impossible, of course, but expressive of our aim for better and better service.

Let us serve you electrically.

POWDER EXPLOSION INJURES BOYS' EYES

Oren, the little nine year old son of Mr. and Mrs. Fred Adair had the misfortune to get his eyes and face badly burned Tuesday evening while playing with some powder.

The Adairs were visiting at the Sam Adair home and Oren in company with his cousin, G. S. Adair, had, like most boys of this age, become so enthused over the celebration that they were continuing the sport in a novel but dangerous manner. It seems they had got some powder and poured it into an old harness hame cap. Then they saturated a string with gasoline, placing one end of the string in the powder and striking a match to the other end, expecting the string to serve as fuse and give them time to get away before the explosion. But somehow it failed to work as planned, and in investigating or trying another experiment, the explosion occurred just as Oren had his face in the right position to receive the full force of the charge.

Dr. Fullerton was called and he advised the lad be taken at once to an eye specialist. G. W. Adair and Mr. and Mrs. Fred Adair immediately got ready and started with the boy for Des Moines.

J. W. and Fred returned home this morning and report the boys' eyes not in as serious a condition as was feared which will be good news to everyone.

Death of 'Aunt' Mary Bishop

Mrs. Mary Bishop passed away Thursday, July 1st at the home of her nephew, Elmer Athey, southeast of town. She was eighty-four years of age and had been in feeble health for a good while. She had made her home with Mr. and Mrs. Athey for the past several years. "Aunt Mary" as she was commonly known, was one of the old settlers, coming to this country somewhere about sixty years ago, where she has always been highly respected. The funeral was held Saturday at Middle Fork. Will try to secure obituary for next week.

Rear Admiral H. O. Stickney, retired, who has been appointed by Secretaries Hoover and Kellogg as Federal Commissioner to the Sesqui-Centennial International Exposition commemorating the 150th anniversary American Independence and which will be held in Philadelphia from June 1 to December 1. Admiral Stickney will be in full charge of the United States Government exhibit, which will be the largest of its type ever made.

Mysterious Blaze Destroys Large Barn

On Wednesday evening of last week the large barn of Guy Saville's northeast of town, caught fire in some manner and burned to the ground in a short time. It remains a mystery how the fire started, as Mr. Saville does not smoke or carry matches and as no new hay had been put in the barn this year he cannot account for how the fire originated. It was along about 7.00 p. m. and Mr. Saville was still out in the field plowing corn when he seen the flames break through the roof of the barn. Before he could get in from the field the roof had fell in.

It was quite a loss as it was a fine large barn, 40x40 feet and well built from first class heavy lumber. There was also about \$500.00 worth of hay and grain, two sets of harness and numerous other articles of value consumed in the flames. The barn carried \$800.00 insurance, about half enough to rebuild, but no insurance on hay and grain etc.

It was one of those real hot days, everything dry as powder, and the barn burned fast and furious. Neighbors who saw the flames start through the roof were unable to reach the place before the roof fell in. For a while it looked like the corn crib and the house might catch fire, the heat was so intense, but neighbors who had arrived on the scene, pitched in and carried water, confining the blaze to the barn.

Mr. Saville was in town Saturday figuring on the cost of a new barn which we understand he will begin building in the near future.

Do You Remember?

How many of the old timers remember the 4th of July celebration nineteen years ago—the tug of war between town and country, ball game between single and married men, who won the races and other contests? Can you guess how much money it took to put on a celebration those days? Well, next week we expect to publish an account of this Redding celebration of 19 years ago.

A Shower

A shower party was held at the Chas Adair home Thursday afternoon of last week, given by Miss Dale Adair in honor of Mrs. Quentin Abarr. Mrs. Abarr received many useful and beautiful gifts which were appreciated very much. Refreshments of ice cream, cake and ice tea were served.

MEMORIES OF FORTY YEARS AGO

Through the courtesy of Mr. and Mrs. Phil Studer who handed us a copy of the Redding Register, published in 1907 by J. W. Howe, we are privileged to publish the following articles which Mr. Howe had taken from another old Redding paper, The Independent, published 40 years ago, that we believe will be of interest to a great many of our readers today.

"The Independent was published in Redding in 1886 by Clayburg Bros., A. L. Clayburg being the proprietor. The copy from which we take the following gleanings was published June 10, 1886 and was furnished by C. H. Amick, having been sent at that time to his father, Andy Amick. The Independent was an eight column, 4 page paper, not very beautiful from a typographical standpoint.

From the directory the following is learned:—

City Officers:—
Mayor—F. M. Wisdom.
Marshall—J. M. Baird.
Deputy Marshall—F. Rawson.
Councilmen—Dr. Lawhead, Joseph Allbee, Milt Sullivan, J. W. Beaman, L. P. Milburn, J. H. Allyn.

Recorder—M. A. Waugh.
Rev. Aten was pastor of the M. E. church. M. A. Waugh was commandant and A. Amick adjutant of Thos. Houston Post, G.A.R. The doctors were A. E. King and T. H. Humphreys

J. F. Ransen was barber, (not a "bobber" in those days.)
J. M. Baird was contractor and builder.

Ed. Boughner was house and sign painter.

The front page was taken up by an advertisement by P. B. France. Turning to the local pages we glean the following items:—

Mr. Ab Wells got one of his fine colts pretty badly hurt Monday.
J. H. Allyn and family moved to Mt. Ayr Tuesday where they expect to make their future home.

The prospects of the extension of this branch of the C. B. & Q. R. R. is beginning to look bright. Grant City is getting stirred up about it, and will make every effort in their power to secure the extension.

The citizens of Jefferson township, Taylor county will vote on the tax in aid of the C. St. L. & Pacific R. R. next Monday, and in all probability it will carry. If the citizens of this community don't strike for another road now they may be compelled to put up with this stub road the balance of their days.

W. F. Bernard and family started for the wilds of the west Monday. Will went to take a protracted drive through western Kansas and Nebraska, and his wife went to visit her sister at Harvard, Neb.

A good sized crowd of citizens attended by Derickson's band met at Frank Wisdom's office Tuesday night of this week to make arrangements for observing the 11th anniversary of the declaration of Independence.

J. T. Rothwell was elected chairman, Frank Wisdom secretary when the following proceedings were had and committees elected.

Marshall, J. P. Wisdom, Asst. marshalls, J. E. Babson, Harvey Waugh. Executive com., J. T. Rothwell, Dr. Lawhead, J. T. Bernard. Program com., Wm. Deibert, Fred Andrews, Dwight Derickson.

Grounds com., Dr. Lawhead, Wm. Smith, James Hadley, Fred Oliver, Ed Harrold. Finance com., Grant Burrell, Ella Albee, L. R. Milburn, Minnie Osborn, Frank Ranson. Speaker com., M. A. Waugh, A. C. Clayburg, J. T. Bernard. Fire-works com., Milt Sullivan, D. M. Smith, Dan Martin, J. S. Hoffman, W. E. Hiatt.

The hour of assembly will be 9 o'clock and the marshalls to meet the different delegates as follows: From Mornantown and vicinity at John Williams', from the north and north-east at Old Redding, from south and east at opening of land southeast of town.

The Red Cross Helps Tornado Victims

The local Red Cross and the Mount Ayr chapter came to the rescue of the cyclone victims. At a recent meeting of the officers of the Red Cross people it was decided to use \$200.00 for this home relief work and this added to \$150.00 which the Mount Ayr chapter gave, making a nice little sum. A committee composed of O. A. Watson, G. W. Adair and Stuart Hoover was appointed to place the money where it would do the most good or rather where it was most needed.

A calamity of this kind so near at home gives us a good demonstration of the value of the Red Cross and the Mount Ayr chapter and the local officers have the right idea in using the funds for relief work at home in so far as it is really needed.

Special Sale Successful

The special sale at the Shaffer store closed last Saturday evening is so far as the contest for prizes is concerned, but the sale was so popular that Mr. Shaffer announces in his advertisement this week that he will continue the special prices on a number of items for a short time. He reports a splendid patronage, especially on the closing day, making it by far the best day in volume of business in the history of the store. The prize winners are as follows:—

Wm. Austin, radio.
Ruth Bryan, 42-piece dinner set.
Velma Griffith, Kelley-Springfield auto ensing.
Hazel Waugh, Bible.
C. T. Jennings, baking dish.

Harris wants your eggs, cream and poultry.

FATAL ACCIDENT

NEAR ALLENDALE

An accident occurred Sunday evening about two miles north of Allendale in which Elza Williams was killed. Mr. Williams had been attending a base ball game at Allendale and after the game, in company with Buzz Wilkinson, started north for a car ride, we understand, and in attempting to cross a temporary bridge, Mr. Wilkinson who was driving, lost control of the machine and it went over into the ditch. Mr. Williams was pinned beneath the car but we understand that Mr. Wilkinson was thrown clear of the car, and not much hurt.

Mr. Williams was about sixty years of age, single, and had lived around Allendale for a long time. He was a brother-in-law to G. W. Adair of this place. He made his home with his sister at Allendale.

Reception

On Friday evening of last week Mr. and Mrs. H. S. Abarr gave a reception at their home southeast of town in honor of the newly weds, Mr. and Mrs. Quentin Abarr. "HOW HAVE YOU MANAGED TO DO IT?"

"How have you managed to keep the selling price of Electricity far below the advancing scale of commodity prices in general?" is a question we have often been asked by thinking people who have watched the upward trend of those other items which make up the cost of living.

First, it has been accomplished by reason of the fact that our company is a large organization and by reason of its size, economies of operation can be effected, impossible in a smaller organization; second, by the investment of a new capital in modern, efficiency and third by constant striving for greater efficiency and last and of very great importance by the increased use of Electric service caused by an increased knowledge of the time and labor saving possibilities of ranges, appliances and motors.

Because of the fore-going, Electric service is today actually cheaper than in 1918 while according to figures of the Bureau of Labor statistics of the U. S. Department of Labor all other commodities have an average increase of 65 per cent.

Save-a-Life-Campaign

June 1st to June 23rd

June 1st to 23, inclusive is Save-a-Life Campaign period. The movement is sponsored by motor clubs, life insurance, accident insurance companies, civic clubs, automotive trade associations and endorsed by secretary of state Ed M. Smith and Supt. of the motor vehicle department Roy B. Gault. In a state wide campaign to offset one of the principal causes of automobile accidents and loss of life. The Redding Auto Company has been appointed an official inspection station during this period. You can drive to the garage and have your car or truck inspected free of charge from June 1 to June 23. Glenn will test your breaks, lights and steering mechanism and it won't cost you anything. If your car needs any adjustments he will make them for you, if you wish and at a small cost, or you can get the work done wherever you like. The object is to get every car in the state, if possible, in a safe mechanical condition, and if your car is in such condition, or when it is put in such condition, Glenn will give you an Official State Emblem sticker to display on your windshield.

The cooperation of the motoring public is earnestly requested to make the Save-a-Life Campaign a great success, and in the interest of public safety every car and truck should be wearing its official emblem of civic cooperation and mechanical good order by June 23, when the campaign ends.

Memorial Day Services

Memorial Day was fittingly observed in Redding yesterday. The program as published last week was carried out. The services at the M. E. Church in the afternoon were well attended.

As the years go on the number of the G. A. R. becomes less and less. This year there was only one member present of what was at one time a large membership of the now disbanded local G. A. R. Post at this place. Mr. W. M. Staton was the lone member present yesterday to represent this organization.

Two Gold Star Mothers were in attendance at the services, Mrs. Ida Herrington and Mrs. Bert Maloney.

A fine address in keeping with the occasion was delivered by Rev. Amack.

The Bible Contest Sunday evening was largely attended.

The committee, Prof. and Mrs. George Weyrauch and Mrs. Hughes had spent much time and effort. Mr. Vogel, Supt. of the Blockton M. E. Church, assisted. The real big prize was the Bible, presented by our Postmaster, Mr. Frank Parker. By the broad smile that wreathed his countenance Monday morning, the contest was a success. In fact this was the general opinion.

The Bible was presented to Miss Venice Eaton, while 2nd and 3d prizes were awarded to Marian Maloy and Ruby Moler.

In the class reading, Miss Dale Adair's class carried off the blue ribbon and Mrs. Fullerton's class, the red. Mrs. Fullerton named over 100 Bible characters and seemed ready to give that many more. The judge was satisfied she should receive first award.

Ribbons were also awarded to Mrs. Pearl Adair, Mrs. John Ullery, Mrs. Chas. Norris, Mrs. T. J. Forbes, Mrs. Ada Eaton, Mrs. Mary L. Hoffman.

The Bible Zoo Contest was won by Truman Glendenning and Llewellyn Hughes. Mrs. Hughes sang a solo about "Mother's Bible" and Bonnie Norris' class of beginners sang "Jesus Loves me this I know for the Bible Tells me So."

Rising votes of thanks were given all who had any part in this contest, which was declared worthy of repetition year by year.

The pastor declares that the service on Sunday morning was the most glorious spiritual service he has witnessed for many years.

Scientist Refuses to**Worry Over Spelling**

Of course "enough" spells "nuff" and yet "enough" is not spelled "caugh." Schoolboys, seasoned business men, not to mention school teachers, often find the spelling of the English language a bit troublesome. But here is a one-time university professor and now eminent scientist who not only admits that spelling "gets him rattled," but goes so far as to invent his own form of spelling, which exactly follows out the sound of the word.

Hence we find such sentences as these in a recently issued volume by the anthropological department of a university museum:

"His bald wuz still black."
"The two rittings when they wer don, ov course wer not alike."
"Some paragrafs ov his own wer dropt."
"I say as nearly as possible becauz—"

The author of the volume, which is the translation of a legend of the Kerebi Indians of Guatemala, is Robert Burkhitt, an Englishman.

Who! Who! Who-Are-You?

Hoot owls are not unlike preachers

in some ways. They do like chick-

ens. Something had been bothering

about the henery for some time,

usually in the after part of the night.

Trips at different times during the

week small hours failed to bring to

light the disturbers identity. But

one morning the editor was prevailed

upon to get out quickly about day-

light to see what the excitement

among the chickens was about. A

large owl seen soaring away and

a little later in its trail we discovered

a chicken where it had been dropped;

dead but still warm. Clifford set a

14-foot pole in the ground near the

coops and set a steel trap on top of

the pole. The next morning Mr.

Owl was there. He had stepped in

it with both feet. He is no longer

a "wise old owl."

When Hog and Auto Meet

Paul Parker, accompanied by his

wife and his brother, Oliver, collided

with an old sow near the Dan Croy

struck the animal. The speed of

25 miles an hour overturned the car

leaving the wheels up in the air. The

windshield was shattered but fortunately

no one was seriously injured.

The top of the car was also considerably

battered.

Mr. Croy, who owned the sow,

volunteered to help make good the

damage. Thus, in friendly fashion,

the damage will be met as far as

possible.

Growing Up

There was a happy line-up at the Charles Adair home Sunday. Miss Dule Adair had invited her grandfather, George Adair and her uncle, J. W. Adair to be dinner guests in the home. Unknown to her or others of the family, Mrs. Earl Adair planned a surprise on Mrs. Charles Adair in honor of her birthday. When all were assembled there were present, besides the family, Mr and Mrs Harry Rankin and son Talmadge, Mrs. Adair's father, S. L. Jones, her sister, Mrs. Ethel Rankin, Mr. and Mrs. Sam Adair, Mr. and Mrs. Earl Adair and family, George and Wesley Adair, Mr. and Mrs. E. E. Edwards, and Mr. and Mrs. J. W. Harris. After enjoying the afternoon all returned home except Mrs. Ethel Rankin and Mr. Jones who are still guests in the home.

The Close of School

School closes next week. The formal announcement exercises will begin with the baccalaureate sermon by Rev. F. W. Amack Sunday evening. On Tuesday evening the Senior class play will be given in the high school gymnasium. The crowning of the series will be Thursday evening when the Seniors will receive their diplomas in recognition of having completed in a satisfactory manner the courses of study they have been pursuing. It is an occasion for an honorable pride, in that it represents the completion of a real task that has for its purpose a better preparation for the years that lie ahead. The Herald joins their many friends in wishing them every honorable measure of success.

The school year has been a busy one for faculty, for students and for parents. All have joined in the effort for good results and not in vain. When this kind of team work prevails good is bound to come of it. Out of the successes of the school year good will come. If any failures occurred these too, will work for good if the future will take advantage of any mistakes made and determine fully to do better.

Fifty-Three

Sunday was a birthday for S. P. Baird. He may have forgotten it but others did not forget it. Mr. and Mrs. Roy Baird and Lee Hull and family joined in for a home celebration. His daughter, Mrs. Lester Stephens and Louise Hull got heads and hands together in the making of a birthday cake exclusively for himself. A fine chocolate cake it was, too, with frosting and the number 53 worked in the top. The cake and the number both made Mr. Baird feel that the courtesy of the ladies was a fine tribute to his vigor and looks. He, of course repaid them by looking the part.

To help make the day a perfect one a package came from Grand Island, Nebraska, to add to his good cheer and another from beyond the Rockies from Boise, Idaho. It was all a fine way to grow old.

Surprise Gathering

There was a surprise gathering at the Chas. Moler home Sunday it being the occasion of Grandma Moler's birthday. Those that came to make merry and wish her many more happy years were Guy Norris and family, Dee Lamb and family, Eddie Smith family, Esther Harris, and the Will Murphy, Elmer Moler and Chas. Moler Jr., families. It was a fine day and a fine time.

A Painful Injury

Wayne Jarman was severely hurt last Friday afternoon. He had plowed the Harley Anders garden and was harrowing it when the accident occurred. The ground was wet, causing it to roll up under the harrow upon which he was riding. The rolling of the wet soil caused the team to stop, thus throwing Wayne from the board on which he had been standing. He was able to free his left foot from the harrow, but a tooth caught the right foot, passing through it on the outer side. This caused an ugly and painful wound that Dr. Fullerton cared for promptly. In order to prevent against lockjaw a supply of serum was ordered for use the first of this week.

Wayne plans to put in 40 acres of corn down on the bottom land west of town. Just now his chief occupation is trying to get on his feet by the time the ground is dry enough to be fit to work.

In Creston Hospital

Recently George Moler was working with the battery of his car and in some way pinched his hand with the pliers, and then it was thought some of the corrosion of the battery acid came in contact with the sore hand. The hand became infected which did not yield to local treatment. Saturday he went to Creston with Mr. and Mrs. Kermit Saville and entered the hospital where they at once lanced the swollen hand and entered tubes for drainage. Mrs. Moler and Kermit Saville visited him at the hospital Sunday and report that he was getting along fine and would probably be home the last of the week.

Bessie and Ethel Abarr and Kathleen Roberts of Albany Mo., visited Sunday with Mrs. Anne Abarr and family.

Mr. and Mrs. Dewey Adair came Christmas morning from Chicago to spend the week end with their parents, Mr. and Mrs. T. C. Gallo-way and Mr. and Mrs. J. W. Adair.

Death of Mrs. D. M. Harris

The Community was saddened Monday morning when it was learned that Mrs. D. M. Harris had passed away. The funeral was held Wednesday afternoon at the M. E. Church, conducted by the pastor, Rev. W. H. Warrior, and was very largely attended. Interment was made in the Redding Cemetery.

M. E. Church Notes

Services next Sunday morning at which service we will observe the communion on the Lords supper. This is one service of the church that helps us to get closer to the Master, if we come with humble hearts.

Since we only have services every Sunday morning, some of us have thought it would be a fine thing to revive the old "Class meeting" and have such a meeting the day there is no preaching services. That would be a fine service to render to our master. As long as the church people have an experience, a testimony, a prayer, the church that they love is bound to prosper.

What the word

PARCO

Means to Motorists

PARCO GASOLINES have earned for themselves a far flung reputation for uniform high quality, dependability and motor fuel efficiency. The word "PARCO" has come to mean the very utmost in motor fuel performance to thousands of motorists throughout the land.

The word "PARCO" is coined from the initials of the "Producers and Refiners Corporation." PARCO is the trade name under which the products of this corporation are marketed.

Producers and Refiners Corporation is one of America's major independent producing, refining and marketing companies. Its holdings and refinery equipment include: 650,000 acres of oil land leases; 320 wells producing 5,000 barrels of crude oil daily; three completely modern refineries with an aggregate capacity of 20,000 barrels daily; 2,500,000 barrels storage capacity; 770

tank cars and 1,400 miles of pipe line.

In addition to its own crude oil production the Producers & Refiners Corporation is closely affiliated with the Prairie Oil & Gas Company, and thru this connection has unrestrained selection of the highest grade crude oils in America. Then, by treating these superior crudes thru *Parco's exclusive patented processes* a gasoline so clean, so free of gum and sulphur is produced that it stands alone in the quality field of motor fuels and is approved as fuel for gasoline pressure appliances in various states. (See United Laboratories General Approved List.)

This, then, is what the word "PARCO" means to motorists: The cleanest, purest, highest powered and longest mileage gasoline the market affords, and a uniform quality on which you can depend--ALWAYS!

That Purple Stamp

"HAVE you seen the little round stamp on meat which reads, 'U. S. Inspected and Passed'?" asked W. R. M. Wharton of the Food and Drug Administration of the United States Department of Agriculture in a recent radio talk. "Well, friends," he continued, "this little stamp on meat means that the animals furnishing the meat have been inspected both before and after slaughter, by expert veterinary inspectors of the United States Bureau of Animal Industry. It means that the meat comes from healthy animals and that it was clean and wholesome in every way at the time of inspection and is fit and proper for food."

Canned Meats, Too

"The Bureau of Animal Industry also inspects many other meat products—sausages—cured and canned meats at establishments where interstate commerce is in-

involved, and all such products must pass rigid inspection and be wholesome, healthy and sound before they are allowed to bear the 'Inspected and Passed' legend."

The meats now put up in cans include: bacon; beef, boiled, corned, dried and roast; beef steak with onions; beef stew; brains; ham, deviled and in loaf; hamburger steak; hash; stewed kidney; liver with bacon and with onions; roast mutton; pig feet; potted meats; sausage, alone and with sauerkraut; tongue; calf's lamb and ox; boiled tripe; veal loaf and veal roast. There are also ready-made entrées containing meat such as beef à la mode, chop suey, Hungarian style goulash, Irish stew, etc.

This inspection applies only to meat and meat food products which are prepared in plants engaged in interstate commerce, but most canned foods are so prepared."

Valentine Party

The Royal Neighbors enjoyed a Valentine Party at the hall Tuesday night. The evening was spent in games and music and a social good time. Refreshments were served. One of the popular games enjoyed was the reading of an engagement which was distributed among those present written down with blank spaces to fill in. After the article was properly put together it read as follows:

Once a nice young Couple by the name of Irena and Mr. Maloy were driving along in his nice big Grant, when he suggested they elope. She at once answered Oh first we must tell father. Now father was very much opposed and spoke so stern to them that she felt ill. As they prepared to start on their journey she called to him don't forget the Water-son. She looked so ill he thought a little Mt. Ayr might help her. So started in that direction. But she said it isn't Worth while. They only went to Delphos and Diagonal across the country. Both were Bent-on marriage and at 6 o'clock their marriage was broadcasted from Shenandoah. She looked so tired that they stopped on the way back and rested at Clarinda and looked around the institution. The next stop was at New Market where they bought some fruit and at their next stop got a Bedford. Early in the morning they started south but found the road blocked on them. So came back to Redding and father soon forgave them.

NO TIME TO WRITE AN ADVERTISEMENT

We went down to Crouch's Grocery the other day after an adv. and found them busy. "No time to write an adv." Marion said. What's an editor good for if he can't write an adv. anyway? "Look around, and if you see anything worth mentioning, go to it" he said.

Well, we looked around and could certainly see things worth mentioning. Could fill a whole page—groceries and canned goods of every description. Window full of fresh fruits—apples, grape fruit, oranges, bananas, etc. A 10c counter of canned fruits and vegetables, just right for a good appetizer, and breakfast foods, anything you like. Several different kinds of coffee—they have a 25c coffee that they said they were selling like hot cakes, and that reminds me of their fine display of cookies, crackers and pancake flour and syrup, and they just got in some new honey.

Yes, we could find something to write about, and it hadn't ought to be much trouble to write an adv. here, but our mouth got to watering so that we had to leave before we got around to everything in—

Motors Cost Farms

Three Dollars Per Acre

Des Moines, Iowa, February 9. The cost of operating the 217, 129 automobiles, 55,065 tractors and 26, 473 trucks on the 208, 506 Iowa farms, represents an overhead cost of approximately three dollars per acre, according to Carl N. Kennedy, Assistant Secretary of Agriculture.

"This means that there is slightly over an automobile, one-fourth of a tractor and one eighth of a truck for every Iowa farm of 158.5 acres," stated Mr. Kennedy.

"A conservative estimate of the cost of operating this equipment would be approximately \$500 per farm or slightly over \$3 per acre. This overhead cost is difficult to absorb with present low prices of farm products and is one of the reasons for the closer study of horses and mules for farm power purposes."

Calls Newspaper Best Clerk

Roy H. Ott, director of the Penny chain stores, describes the local news paper as "our best clerk." He explains that it sees more people, gets more of their individual time, works longer hours, and tells its story with more accuracy than any other clerk they can employ. "These papers are going into the homes of the people, and are assured of their friendly attention. This is proved by the tremendous growth in importance of the press in the last few years, according to Mr. Ott, who declares that today the newspapers is the backbone to any constructive sales effort.

Celebrate Fifty-Eighth

Wedding Anniversary

Mr. and Mrs. D. R. Moutray will celebrate their fifty-eighth wedding anniversary Friday of this week, October 9th. Fifty eight years ago Mr. Moutray and John Newman put up wild hay in east Grant City.

Well, I'll Be Dogged

That's the expression one of our citizens used early this morning as he examined a box along the side of Federal Highway 169 in the east part of town. The box contained three black pups with white markings, apparently of the hound breed, but no pedigree was found with them. Another citizen soon came along and gathering one of the pups in his arms and remarked, "This dog has found a home." So if you want a pup, better hurry, first choice is already taken. It's going to be a hard winter on dawgs.

Sunday school and worship service at both places next Sunday morning at the usual hours, also the Communion services at both places.

We are announcing a revival meeting to begin next Tuesday night at 7:30. We ask that every body begin to talk about it, talk about it to everybody we meet. Talk about it until it becomes the main topic of conversation all over the country. Then pray about it. If we have a real revival we have to do something besides talk. God has promised in His word that He will give to them that ask.

Get your Bible and read the third chapter of Malachi, then put yourself where God can use you. Pray that God will send a revival to Redding, and pray God to let it begin with you.

Note of Appreciation

We wish to take this means of thanking our neighbors and friends for their congratulations and good wishes on the occasion of our golden wedding anniversary. It was a joyful occasion to us, and we want you all to know that we appreciate your short visit, and the fine presents, more than we can tell.

Save that feed with RED TOPS

EVERY ton of forage, and every bushel of grain that your stock salvages from the fields this fall means one more ton or bushel in your haymow, silo or feed bin this winter—one less you might have to buy.

Get ready now to turn in the cattle, sheep and hogs. First, repair those fence lines so that stock will not break through onto the highway or other fields or injure themselves on run-down fences.

Use a few stretches of temporary fence to hog down part of your corn, to hold stock off the corn while pasturing the stubble, to fence stock off stacks, to make temporary lanes and to turn in on the corn fields.

You can get free use of Red Tops this fall, for after using them for temporary fences you can then drive them into your boundary and cross fences to replace rotting wood posts and you will have stronger, better fence than ever. The Red Top One-Man Driver and the Red Top One-Man Puller have made building and removing temporary fence a quicker, easier, one-man odd time job.

There is a type and length to meet every farm need in our stock of Red Tops—the greatest fence post value your money can buy.

The Farmers Holiday

This statement was unanimously adopted at the meeting of the county chairmen of the Farmers' Holiday association at Des Moines Saturday, July 30, 1932.

Realizing the utter futility and foolishness of further petitioning congress and those in places of power for immediate legislation and support that will give the American farmer equality with other industries of the nation, the Farmers Holiday association has this 30th day of July, 1932, issued the call for a general "strike" or holding movement on the part of all farmers, such movement to be and is effective at 5 o'clock the morning of August 15, 1932, unless the executive committee of the Farmers Holiday association deems, it expedient to issue the call before that date.

Such Farmers Holiday or "strike" is called for a period of 30 days unless otherwise terminated by the officers of this association.

We take as authority for this call the resolution adopted by the Corn Belt Committee meeting in Des Moines on July 6, 1927, which meeting was attended by the officers of the Farmers Union, Farm Bureau, Grange, Missouri Farmers Association, and practically all of the outstanding co-operative institutions in the middlewestern states. This resolution was prompted by the refusal of those in power to approve legislation for the American farmer. The resolution follows:

"If we cannot obtain justice by legislation, the time will have arrived when no other course remains than organized refusal to deliver the products of the farm at less than production costs."

Remembered on 40th

Wedding Anniversary

Mr. and Mrs. T. J. Stephens were pleasantly reminded of their 40th wedding anniversary last week by a letter from their friend C. H. Amick. The letter will be of interest to most of our readers and through the courtesy of Mr. and Mrs. Stephens we are permitted to publish it.

Henderson, Iowa,

August 6, 1932.

Mr. and Mrs. T. J. Stephens, Redding, Iowa.

Dear Friends:

If my memory serves me right, and it usually does, tomorrow will be your fortieth wedding anniversary, and I wish to extend to you my best wishes and to wish you many happy returns of the day. I trust that this finds each of you enjoying good health, and I know your many friends will wish you the same things I have expressed, whether they have the opportunity of telling you so.

At a milestone like this, a person naturally looks backward, and we will see so many changes which have taken place since that time. I think the first telephone line was built into Redding about 1894 or 1895; this was also before the advent of the first "horseless carriage" and many years before the Wright Brothers made the first successful flight in an aeroplane December 17, 1908, in which their plane only flew a short distance and was in the air perhaps not more than a minute.

Whenever I come to Redding, I shall be glad to call and see you, but my visits are so brief and there are so many people I wish to see, I cannot spend very much time with anyone.

Again wishing you many happy returns of the day, and with kindest regards, I remain,

Your Friend,
C. H. Amick.

Saturday Night Show

There was a good crowd in town last Saturday night in spite of the rain and bad roads. It rained most all day Saturday. The clearing up shower came late in the evening and the roads were quite muddy. However, the attendance at the free show by the Berry Players was close to 600. The tent was put up in the park because of the muddy condition of the streets. The play was one among the best they have given and was apparently very pleasing to the audience. A special number was the music played by one of the violinists on the back of a hand saw and using a violin bow.

The Berries are putting on good entertainments each Saturday night and they frequently have something extra in their specialties, not advertised, as a surprise to their audience.

The play next Saturday night is, "An Indian Secret." The show is free to all. You can get tickets at any of the business houses in Redding.

Mr. and Mrs. Sanford Eaton, Mrs. Clyde Eaton of Anthony, Kansas and Mrs. Eatons father H. M. Randles of Bluffs City, Kansas, came Tuesday for a few days visit with relatives here. L. E. Eaton who has been spending the summer in Kansas returned home with them. Kansas seems to agree with L. E. and they have undoubtedly been feeding him well as he is plenty "fat and easy"

New Players Coming

The show at the hall was well attended again last Saturday night. Mr. and Mrs. Berry have been quite busy the past week or so securing new players for the coming weeks. A new attraction for next Saturday night is Miss Mildred Langdon, personality girl, who has just finished a six month engagement in Kansas City. Other new actors they have secured are Mr. and Mrs. Jerry Bruce, dancing and harmony singing and don't fail to see Jimmy Tubbs, the dancing fool.

The play for next Saturday night is a western entitled, "The Boss of Bar-Z Ranch," and for a Merchant's ticket, which is free, and a five cent piece at the door, you may have many worries erased from your brow. It will do you more good than \$5.00 worth of any patent medicine.

An Old Deed

Raymond Harris showed us a couple of deeds last week that are older than most such papers in this country at present. One deed was made out to Benjamin Higgins of Palestine, Crawford County, Illinois, great great grandfather of Mrs. Raymond Harris, proclaiming that a deposit had been made in the land office for an eighty acre tract of land. The deed was made out in Sept. 1831 and signed by President Andrew Jackson. The other deed was made and signed May 1, 1850 by President Zachary Taylor, and called for a 40 acre tract in the same county. Both deeds were made on heavy sheepskin paper.

Evidence of Spring

Evidence of spring began to show up in different ways last week. We saw some boys playing marble on the street the other day, Charlie Michael heard a frog singing Thursday of last week, and about the same day Earl Adair was preparing to sow oats. Frank Waugh reports the wild ducks going north and a few flies showed up those warm days. We feel safe in predicting that spring will be here in a couple months or so.

Card of Thanks

I wish to express my thanks to my friends for the beautiful valentines, and the many other acts of kindness shown me during my recent illness.

Will Publish Back proceedings

The town council of Lenox had resolved to publish the council proceedings for April 1st, 1930. Six citizens of the town brought proceedings against the council and it that proved satisfactory to the plaintiffs the matter would be published.

Since then six other citizens joined in the complaint and the case was brought before Judge Homer A. Fuller at Blockton last week. After hearing the case Judge Fuller ordered the council to publish back proceedings since April 1930, at regular and special meetings.

The publisher of the Times-Table was called upon to make an estimate of those publications which he figured would be \$250.00. Judge Fuller also taxed the costs of the case against the town.

The threatening weather kept a lot of folks away from town last Saturday night but the Berry Players filled their appointment as usual and put on a good show. About two more entertainments to the hall and then they will be out in their tent for the summer, anyway that is the plans now. The play for next Saturday night is entitled, "C. O. D."

Dan Croy had a close call Friday of last week while harnessing one of his horses. The animal took a notion to put Mr. Croy out of commission and let fly with both heels. The fact that Mr. Croy was standing close, behind the horse and a little to one side is probably all that saved his life. He was struck in the stomach and knocked sideways through a gate into the corn stalls, and it was some time, just how long he does not know, before he came to. A thorough examination by the doctor did but reveal any serious injury and Mr. Croy thanks his lucky stars for a lucky escape, although he has been nursing a mighty sore breadbasket the past week.

The whippoorwill has been adding his bit to the music of the other spring birds the past week. This is an old sign that it is time to plant corn and the click of the corn planter is now heard in the land. The first corn to be planted that we have heard of was Wednesday last week, April 26 when J. W. and Earl Adair began planting a 30 acre field of fall plowing. Robert Shaffer was also planting corn Friday. It had been an ideal spring for preparing corn ground, a little moisture would not have been amiss, and this week will probably see all this work finished. Indications are now that the bulk of the corn ground will be planted in May this year.

Albert Jackson of Des Moines was a Redding visitor Sunday.

Mr. and Mrs. D. M. Rich, Treva Derickson, Doyle and Gwendolyn were Sunday callers at the Newt Rich home.

A Missouri crowd chivvied Mr. and Mrs. Cecil Shaffer Wednesday night last week at the home of her parents, Mr. and Mrs. Albert Fletcher near Irena and an Iowa crowd came to their home west of Middle Fork and repeated the performance.

Mr. and Mrs. T. J. Stephens, Ida Parker and Howard, Mrs. Thomas Stephens and Tommie, Crystal and Trueman Glendenning, and Bert Norris helped little Julia Ann Stephens celebrate her fourth birthday at the Lester Stephens home Sunday.

Mrs. E. C. Henderson gave a shower Wednesday evening of last week for Mrs. Howard Shaw. Those present were: Miss Alta Adair, Miss Louise Hull, Mrs. F. B. Maloy, Mrs. Roy Smith, Mrs. Lorene Shaw, Mrs. Mamie Shaw, and all the teachers of the school.

Mrs. Mary E. Stewart, Mr. and Mrs. Maynard LaMond and daughter Mary of Des Moines moved their household goods down the first of the week and are now at home in the M. E. Parsonage. Mrs. Stewart owns the old Thos. Miller farm northeast of town.

Howard Guthrie was in a run-away last week from which he is lucky to have escaped alive. He had been dishing and was coming in on the highway when the team started to run, and in some way throwing him in front of the disk. He managed to hold to the framework of the disk, skidding himself along in front of it for some distance until he regained his equilibrium and then he turned a hand spring over the disk to safety, escaping with a cut wrist and bruised knees. The team was unharmed and the disk not so badly damaged.

Oil Tanks and Pump House

Destroyed by Night Fire

The Redding Oil Company's oil tanks and pump house on the C. B. & Q. rightaway were destroyed by fire Tuesday night. Residents in the north part of town were awakened between 11:30 and midnight by an ear-splitting clap of thunder which was immediately followed by a blaze at the pump house. The pump house had evidently been struck by lightning which set the oil-soaked woodwork on fire, although no one went near enough to tell just where the bolt struck and what really happened. In the pump house were several barrels of different kinds of oils and greases, and the tanks contained about 12,000 gallons of kerosene and gasoline which was all consumed and without much explosion.

The flames leaped into the air to a height of 100 feet or more at times and it made a spectacular and rather terrifying sight in the dark stormy night. The A. T. Mekemson, Alvis Shaw and O. L. Hull families on the east vacated their premises and fled to the C. T. Jennings place three quarters of a mile east of town, not knowing at what minute an explosion might occur and wreck their homes.

The fire continued to burn all night and smoldered all day yesterday with an occasional spurt of flame ten or twenty feet in the air.

The loss is estimated at something like \$2,500 or \$3,000, and is partly covered by insurance.

We understand that a new set of tanks and pump house will be erected in the near future.

NUMBER 36

Redding Loses Two Games

The Redding Merchants lost two close ball games over the week end, losing Saturday to Kellerton at their annual reunion 5 to 4 and Sunday to Denver 7 to 5. The Kellerton game was close all the way through and was the first when with one out, Cavander former Redding player, got a three base hit and scored on an infield out. In the third he got a double and scored a moment later on a hit by Ballou. In the seventh a walk, three hits and an error resulted in three Kellerton runs. Straight, in attempting to field a passed ball ran into a car and hurt his shoulder at the start of that inning. Redding scored in the fourth when Combs singled, stole second and went to third on a passed ball and scored on an infield hit. They played at home but too late. In the sixth Hartley singled and went to third on Combs' single. Combs stole second and Rusco hit to the short stop who threw Hartley out at the plate, Combs coming to third and Rusco started to second. While the catcher and second baseman were playing catch Combs scored and Rusco came to third. Harris beat out a bunt, stole second and scored along with Rusco on a hit by Waldrip.

We do not feel like saying much about the Denver game as the players and boosters all felt the main thing about a ball team was their umpire.

The Merchants go to Corning today, (Thursday) and Gentry comes here next Sunday.

Robert Malaney was six years old last Sunday and a birthday party was given in his honor at the home of his parents Saturday. Those present were: Geraldine Harris, Cecil and Victor Herrington, Amah and Robert Boyles, Eva and George Lewis Saville, Mary and Robert Saville, Nina Alice Miller and Laurence and Robert Malaney.

More Big Trees

C. M. Frame of near Clearfield has a maple tree in his back yard that measures 16 feet in girth away above the ground. This beats the Eaton tree that we reported last week about three feet. However the largest elm reported by the Clearfield man so far is only 10 feet and 6 inches so we still claim the champion elm, measuring 13 feet.

In our tree item last week the mention of a tree measuring 142 feet in girth was somewhat overdrawn, but of course everyone realized that we meant to say inches. However trees do grow over 100 feet in girth but not in this country. The general Sherman, a Sequoia tree in California measures something like 103 feet in circumference and even our largest trees in this section are dwarfs in comparison.

F. M. Waugh has a cottonwood tree on his place that measures 183 inches two feet above the ground.

Earl Cochran reports a maple tree at the Smith farm east of town that measures 170 inches two feet above the ground.

Home-Coming S. S. Picnic

The U. P. Sabbath School will have a Home-Coming Picnic Friday August 11th in the Hammer Grove in west Redding. Invitations were sent the first of the week to those at a distance, and a cordial invitation is extended to the M. E. Sunday School, and all who care to come are welcome. Bring well filled baskets, and all who can are asked to bring a freezer of ice cream.

It was planned to have the picnic announced last Sunday night, but as there were no services in Redding, no way of making the announcement was available.

M. E. Church Notes

Services next Sunday morning. We will also elect our Lay Delegates to the Annual Conference.

Our last quarterly meeting will be held August 27 in the Blockton church at 8 o'clock.

The Annual Conference will be in Des Moines beginning Sept. 19. This years work will soon be only history.

We are in revival meetings at Middle Fork this week. The attendance and interest is very good. We will have services Sunday morning and afternoon with baptismal and consecration service at the afternoon meeting.

Sunday visitors at the J. E. Hoffman home were: Mrs. Cecily and Vivian of Grinnell, Ivan Hoffman and family, Mrs. Mary Hoffman of Colorado, H. S. Abarr and family, Tom Miller and family, Mr. and Mrs. Duane Miller, Mr. and Mrs. Paul Derickson, and Olin Hoffman and family.

We note in the Woodworth North Dakota Rustler that Denzil Derickson son of Mr. and Mrs. Earl Derickson, and knocked unconscious and received painful bruises when he fell from a stumbling horse. He was found by his wife and his father lying in the barnyard still unconscious an hour after the accident and it was another hour before he regained consciousness. It was found his injuries were not serious.

Mr. and Mrs. James Wells of Leasonville, were visiting Redding relatives and friends Saturday. Jim made the Herald office a pleasant call. When Jim lived in this community several years ago he was counted one of the strong men hereabouts, and he says he is just as good now above the knee as he ever was. To prove this he picked up a piece of new wrapping rope in the office, equal to six or eight strands of binder twine, wrapped it around his hands and broke it.

Some sort of blackbird gathering picnic or reunion was held in the Willard Oliver oat field Wednesday morning of last week. As we came to town the field was literally covered with these husky birds and they were apparently having a feast. This field was not cut this year but was used for cow pasture after the oats were well matured and we imagine these birds had discovered this as a good feeding ground. It was by far the largest flock of blackbirds or any other kind of birds that we have ever seen.

Officers and directors of the Farmers and Merchants Mutual Telephone Company held their regular monthly meeting at the Herald Office Saturday afternoon. It was the general opinion that something must be done about the payment of telephone dues in the near future if the organization is to continue to function. Some have paid their dues and others are paying small amounts regularly, but there are others that have not done this. The money received for dues is practically the only source of income the company has to depend on and now the fees are down to where if only a part of the shareholders pay, there is not enough money to pay expenses.

Glee Smith spent Saturday night with Robert Mincks.

Alice Belle Wright spent Monday afternoon with Cloydene Foltz. Iriline Rowe returned Thursday after a visit with relative at Worth.

Mrs. Anetta Hiatt spent Saturday night with her son, Elsworth and family.

Curt Lynch and family of Worth spent Saturday night with home folks here.

The show last Saturday night was the best we have had at Redding for several weeks. This seemed to be the decision of most people who made up the large crowd in attendance. It was a good play and the specialties were better than usual. They had a new couple on the troupe, Dot and Bob, of radio fame, and they gave a fine exhibition with their accordions and were also good actors in the play. The Claxtons and Rushes who have always been favorites with Redding people, were up to their usual pleasing and amusing moods, and taking the entertainment as a whole, it was pronounced one of the best. The play announced for next Saturday night is "Ten Nights in a Bar Room." This is an old play, but a good one. Some may have seen it, and no doubt many have read the book, but it is a story that never grows old, and since its announcement for next Saturday night we have heard many say that they wanted to be sure and see it.

A number of people were awakened from their slumbers early Sunday morning by an explosion at the oil tanks on the railway rightaway which have been burning slowly since they were struck by light Tuesday night of last week. At the editors home, a mile from the tanks the household was awakened by the explosion. It sounded like a huge sky-rocket such as are used at celebrations during fireworks only more so. The fire is still burning Tuesday evening as we write this, evidently the oil is slowly seeping from the tanks and burning fast as the gas forms. We have no desire to be near it.

Last of Union Savings Bank Assets Sold at Public Auction

The remaining assets of the Union Savings Bank was sold last Thursday afternoon at public auction in the Redding park. The sale consisted of nearly \$40,000 in notes and accounts, some office furniture, a garage at Delphos, and 320 acres of wheat land in Wyoming. The stuff was first offered separately and sold providing it did not bring more when offered collectively. Separately the stuff was bid off at about \$556, but was later sold collectively for an even \$600. Frank Sheldon of Mt. Ayr was the high bidder. This included all the above list with the exceptions of a few small accounts that was settled before the sale.

This practically winds up the affairs of the Union Savings Bank which was closed in February 1930. The bank has paid dividends to the amount of 45 per cent, and there will no doubt be another and last dividend paid in the near future which is predicted amount to between five and ten per cent.

Fifteen Years Ago

The total enrollment in the Redding school was 188.

While playing "hare and hound" with a number of other boys at night Earl Harris ran into a cistern falling to the bottom a distance of 14 feet. He was pretty much bruised and stunned and didn't come out of it entirely for several days.

Word came the first of the week of the death of Mary Hayes of Mt. Ayr at the hospital in Iowa City, following a mastoid operation. She was the daughter of Mr. and Mrs. Loren Hayes who lived here for a time a few years ago.

Cross-Words

It made some of our puzzle workers almost cross last week when they tried to work our home made cross word puzzle. They claim it was too hard, and no one turned in an answer. This was our first experience in making out a cross word puzzle and perhaps we did not give sufficient information.

Here is the solution:

```

w e l l s   m a l e y
b l e e   h a   m a n   m
o f   e   n a   h   p   d i
y r s   b a   o t   m e l
l e t   d r   r   s a l

s   e   c   h   d   e   r   n   a   r
d e w e y   h i a t t
  
```

Now turn to the back page and work our "Whozit." It shouldn't be so hard. If you don't get all the names, send in what you have. You may win with just a few names properly placed.

- NOTICE -

Those knowing themselves owing us on account prior to January 1st, 1933, please make arrangements to settle up not later than December 1st, 1933. After this date we will be compelled to take steps to collect.

Do You Think

Do you think a person ought to drive 10 to 20 miles to some other town to do their trading when they have a good store right in their own home town where they can get the same goods at practically the same price and sometimes cheaper? The imaginary few pennies that you think you might save by driving to some other town is quickly wiped out by gasoline bills and other expenses.

If the stores in your home town are driven out of business by lack of support, then we will all have to drive a long ways for everything, even a loaf of bread, and pay whatever they're a mind to charge.

Those of us who are eternally broke like to cuss out the "big fellows" every time we get a chance, and even to make some chances. Our cussing is an admission of the fact that the big fellows are better men than we are. They've improved their opportunities and have created some on their own hook. We complain because we are envious. But we fail to cuss the right fellow. Most of us are little fellows because we are too lazy to be anything else.—Don Write, in Craine Chronicle.

Christian Science Churches
"Adam and Fallen Man" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, May 13.
The Golden Text is from I Corinthians 15:22, "As in Adam all die, even so in Christ shall all be made alive."
The Lesson-Sermon comprises quotations from the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.
One of the Bible citations reads: "And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So God created man in his own image, in the image of God created he him; male and female created he them. And God saw every thing that he had made, and, behold, it was very good" (Gen. 1:26, 27, 31).
Among the selections from the Christian Science textbook is a following: "Absorbed in material selfhood we discern and reflect but faintly the substance of life or mind. The denial of material selfhood aids the discernment of man's spiritual and eternal individuality, and destroys the erroneous knowledge gained from matter or through what are termed the material senses" (p. 51).

About Bank Loans
"As for the charge that the banks will not extend credit, the first and obvious reply is that the banks themselves are made up of the very bone and sinew of the industrial, commercial and agricultural interests of the country. Bank directors, and, to a large extent, bank officers, are drawn from the business and farming population. If they do not feel at any given moment that it is wise to make a particular loan, it is more than probable that there are sound reasons for not making it," says an editorial in the Saturday Evening Post.

Notice to the Public

Christian Science Churches
"Adam and Fallen Man" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, May 13.
The Golden Text is from I Corinthians 15:22, "As in Adam all die, even so in Christ shall all be made alive."
The Lesson-Sermon comprises quotations from the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.
One of the Bible citations reads: "And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So God created man in his own image, in the image of God created he him; male and female created he them. And God saw every thing that he had made, and, behold, it was very good" (Gen. 1:26, 27, 31).
Among the selections from the Christian Science textbook is a following: "Absorbed in material selfhood we discern and reflect but faintly the substance of life or mind. The denial of material selfhood aids the discernment of man's spiritual and eternal individuality, and destroys the erroneous knowledge gained from matter or through what are termed the material senses" (p. 51).

About Bank Loans
"As for the charge that the banks will not extend credit, the first and obvious reply is that the banks themselves are made up of the very bone and sinew of the industrial, commercial and agricultural interests of the country. Bank directors, and, to a large extent, bank officers, are drawn from the business and farming population. If they do not feel at any given moment that it is wise to make a particular loan, it is more than probable that there are sound reasons for not making it," says an editorial in the Saturday Evening Post.

Feed and Forage Loans

Governor W. T. Myers of the Farm Credit Administration has announced that loans to farmers and stockmen from the drought relief appropriation to purchase feed for livestock and for production of forage crops in primary drought areas will be available this week in 24 southern Iowa counties. The loans will be made from the emergency relief fund appropriated in the act of Congress, approved June 19, 1934.

In pursuance of the Act, the Governor will make the relief loans in areas which have been designated as emergency drought areas by the United States Department of Agriculture. Twenty-four counties in Iowa have been so designated, of which Ringgold County is one.

The loans will be administered by the emergency crop and feed loan section, Farm Credit Administration and handled through the emergency crop loan offices which have organized local loan committees in every county in the drought areas. Special application forms are available at these offices.

The loans will be made to applicants who, because of the drought, do not have the necessary feed to maintain their livestock and must produce forage crops, and do not have the means or other sources of credit available to obtain such feed or undertake production of needed forage.

The amount loaned to purchase feed for livestock will be limited to a maximum amount of \$1.00 per acre, such loan limits being determined according to the cost of feed or the cash cost of growing forage crops in the various drought areas. The minimum amount of a loan or advance is \$25 for either purpose. Loans will not be made to purchase feed for livestock acquired since April 1, 1934.

Security for the drought relief loans will consist of the borrowers promissory note accompanied by a non-disturbance agreement signed by each chattel mortgage lienholder and landlord, except where the lienholder is a production credit association, regional agricultural credit corporation, Federal land bank, the Secretary of Agriculture or the Governor of the Farm Credit Administration.

In announcing these unusually liberal security arrangements, which do not require borrowers from the drought relief fund to give chattel mortgages or waivers, Governor Myers stated that all loans will be advanced in monthly installments in amounts sufficient to feed the approved number of livestock for one month or to pay the month's expenses required for producing necessary forage crops. Further advances will not be made to any borrower who fails to observe good faith by encumbering his livestock, feed or crops, or by waiving his rights to them after he has obtained a drought relief loan or advance.

The promissory notes given by borrowers as security for drought relief loans will mature November 1, 1935 with interest at the rate of 5-1/2 percent per annum. Interest on the loan until maturity will not be deducted at the time the loan is made.

Loans will not be made to applicants whose principal business is the commercial feeding and fattening of livestock for market, nor to any applicant which is a corporation, unless its principal business is farming. Loans may not be made for purchase of feed for livestock or for producing forage crops outside the designated emergency drought areas, nor for feed for livestock that have been moved into a drought area since April 1, 1934.

The local office is Farm Bureau Office, Mt. Ayr. Farmers of Ringgold County desiring to avail themselves of the opportunities afforded by this loan should call at the above office at once prepared to discuss their financial conditions, particularly the number and condition of all their livestock, their supply of feed and funds, and also with complete lists of all debts, mortgages, judgements and encumbrances. This information is absolutely necessary and it ready will greatly assist in the speedy handling of the loan.

Our Trip Through The West

(continued from last week.)

On our return trip we left Boise about daybreak Sunday morning, Aug. 26 via the bus route. Our trip home was over an almost entirely different route from the way we came out, however, we followed the famous old Oregon Trail to Burley, Idaho, the way we came in, then northeast through Rupert, along Snake River, along America Falls Res. Lake to Pocatello.

There is a lot of fine country between Boise and Pocatello. Going through in the early morning the jack rabbits cut all kinds of capers alongside and across the road, reminding a person more than anything else of frisky young mice. Down below Hagerman we passed the "Thousand Springs." These springs come peering down the sides of the mountains in great streams, sometimes regular water falls of no mean dimensions, and we rode for miles before we came to the end of them. The bus pilot told us that there were more than 1000 of those springs, big and little, and that they would furnish enough water for the whole state of Idaho if it could be distributed. Below Hagerman a short distance an old rancher boarded the bus for Kansas City to visit relatives, and from there he was going to the Des Moines fair to buy a pure bred buck for a small herd of his sheep. He went as far as Omaha on the same bus with us. He said that alfalfa could be bought in Hagerman Valley at 80 per ton, that it cost 25 per ton to haul and load it on cars, and freight to Kansas City was \$12 per ton.

A short time before we came to Neeley we passed through the Missouri Rocks, a favorite section of the Indians in the early days, great mounds of rock over perhaps 20 acres which made an ideal place for ambush, and many white men who traveled the Oregon Trail back in the 1840's met death near this place were told. Just before we reached Pocatello we passed through the Fort Hall Indian Reservation, but never saw a red.

We left the Oregon Trail soon after leaving Pocatello, going in a southern direction through McCammon, Downey, Red Rock, Preston, crossing into Utah just below Franklin, then through Logan, Brigham, Ogden and arrived at Salt Lake City about midnight. Here we had as hour wait, changing bus and drivers.

We backtracked up from Salt Lake toward Ogden, taking a short cut west thru Weber Canyon from Layton to Peterson, then southeast thru Morgan, Devil Slide, then northeast through Echo Canyon into Wyoming.

This route from Salt Lake is mostly mountains. Going through the mountains at night is not so fearful as in the daytime because you cannot see down so far. But it was clear, and playing peek-a-boo with the moon and stars over and between those high mountain peaks with the moon casting eerie shadows across the canyons from bluff to bluff, the stark beauty of the mountains in the moonlight appeals to one strangely, and the traveling bus kept the scenery constantly changing which made it a very interesting night of travel.

Advises Against Buying

Acorn-Fed Hogs

Farmers who contemplate buying acorn-fed or "oakleaf" hogs to be finished out on the new corn crop were issued a warning last week by I. W. Arthur, Iowa State College Extension livestock marketing specialist.

His warning is:

"Don't buy acorn-fed hogs unless you can get them cheap enough to stand the dockage which will be made against them at the central market."

Even when acorn-fed hogs are well finished out on corn, packers offer \$2 to \$3 less per hundred for them. They complain that acorn-hogs produce soft carcasses.

Large numbers of acorn-fed hogs are being trucked into Iowa at the present time from southwestern states for sale at livestock auctions.

These imported hogs can be identified by their fine bones, large head and erect ears. They are usually undersized.

Vacation Fever

The Herald is rather abbreviated this week and probably there will be no paper published at all next week. This is because the editor and wife have the vacation fever. We plan to drive up to the north part of the state, Worth county, for a visit at the Quentin Abarr home. As we return home next week we will probably take in the state fair at Des Moines a few days. Mr. and Mrs. Clifford Norris will move into our mansion as caretakers while we are away, and if you want anything at the Herald Office get in touch with our right hand helper, Guy, and he will probably be able to fit you out.

Mr. and Mrs. Stuart Hoover of Des Moines were Saturday afternoon visitors at the Earl Adair home.

New Teachers Elected

At a meeting of the school board last Friday night three teachers were elected to fill out the list which now places the school in position to begin a successful term beginning Monday, September 6. The new teachers elected were: Miss Inez Mannion of Riverside, Iowa, for music and commerce; Miss Mary Florea of Blockton, for fifth and sixth; and Miss Ve'ma Griffith for the third and fourth grades.

Some Nice Spuds

Charlie Combs brought in three of the nicest spuds we have seen in this part of the country for a long time. They are of the Irish Cobbler variety and the largest one weighs one pound and six ounces, and the three of them together weighs three pound and three quarters. Charley challenges Clinton township with this sample for size and quality, and if you can beat it we would like to hear about it.

Hitch-Hiking Readers

A gentleman who has been taking the Journal Herald for several years informed us he did not wish it any longer. We took his name off our list just as freely as we put it on. His neighbors tells us he borrows their copy each week. They do not like to loan the paper, because he is plenty able to take it. If this gentleman will call our sanotum we will give him a copy free. Don't bother your neighbor for his copy of the Journal-Herald. This means those that can afford to take the paper, but dislike the editor. If you are an old "tight-wad" we like you. When your time comes to "shuffle off" we will write just as nice an obituary as a regular subscriber and tell of your wonderful charity acts, and the many good things you have done for the community, and never mention your dislike for us was so great you would not take your home town paper.—A voca Journal Herald.

Adair of Hatfield; Mr. and Mrs. Floyd Adair and daughter, Lenore of Lamoni; Mrs. Day Shafer, Alta Adair, Vada Denhart, Pearl Eager and Faye Dean of Mount Ayr; Mr. and Mrs. Sam Adair of Stratton, Colorado; and Fred Adair and family of Indianola, Dewey Adair, family.

Christian Science Churches

"Christ Jesus" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 29.

The Golden Text is from John 5:22, 23, "The Father judgeth no man, but he has committed all judgment unto the Son: that all men should honour the Son, even as they honour the Father."

The Lesson-Sermon comprises quotations from the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

One of the Bible citations reads: "And John calling unto him two of his disciples sent them to Jesus, saying, Art thou he that should come? or look we for another? When the men were come unto him, they said, John Baptist hath sent us unto thee, saying, Art thou he that should come? or look we for another? And in that same hour he cured many of their infirmities and plagues, and of evil spirits; and unto many that were blind he gave sight" (Luke 7: 19-21).

Among the selections from the Christian Science textbook is the following: "The mission of Jesus conferred prophesy, and explained the so-called miracles of olden time as natural demonstrations of the divine power, demonstrations which were not understood. Jesus' works established his claim to the Messiahship" (p. 131).

Odd Accident:

Guy Shreves of near Cameron, Missouri, rented a pasture several miles from his home which was located back in a rough unfrequented section, and early in the spring he turned five cows out in this pasture. There was plenty of grass, a running spring and an old barn for shade, so Mr. Shreves did not think it necessary to visit the pasture oftener than every two or three weeks. Last week he went out to see how the cows were doing and found all five of them in the barn dead. Evidently the barn door had blown shut and wedged tight and the cows had died from thirst and starvation.

Not Who, But Where:

The Mayor of Clarinda was out to the asylum recently and had occasion to call back to town on a business matter, but was having trouble in getting the party desired. Believing the switchboard girl was not giving him the best of service he finally shouted, "See here operator, do you know who I am?" "No," was the calm reply, "But I know where you are."

Collection Plates:

Two Missouri preachers were recently having a heart-to-heart talk along spiritual lines when the conversation drifted to more worldly matters, and it was found that in neither congregation had the ushers ever found it necessary to stop in the middle of the collection to go and empty the plates.

Unique Proposal:

Kenneth Caslon and Kate Shannon were recently walking through a graveyard and reading the inscription on the stones. Kenneth asked Kate how she would like to have his name on her tombstone someday. She thought it would look alright, so the wedding will be next month.

No School:

Mary had a long eared mule, one day it followed her to school, and the teacher acted like a fool, by slipping up behind said mule, and hit him with a brass bound rule, and after that there was no school.

Gay Old Boy:

W. C. Bailey of Underhill, Vermont, rode a bicycle from that town to Waukegan, Illinois in sixteen days. He said he made the trip to visit his half-sister a few days, and just for the fun of the ride.

Suffering in Silence:

"Suffering in silence isn't any fun at all unless you first make enough noise to attract attention."

In The Red:

"It has taken this country two generations to go from red flannels to red fingernails and red toenails."

Mr. and Mrs. Charley Barleen of Scandia, Kansas and Mr. and Mrs. Harold Hammers and Hazel Barleen were Wednesday visitors last week at the Earl and J. W. Adair home.

Some Are On The Move Rumors of Moves:

A number of people throughout this vicinity are moving this week and as far as the weather and roads are concerned, we do not ever remember of seeing a time, at this season of the year, when it was more favorable for this great spring pastime. The roads have been fairly dry for the past week, the temperature mild and the skies bright.

We will try to give you some of the moves and will aim to leave the rumors of moves for a later date and see how they materialize.

There must be some place to start, so we'll move Stanley Horne from the Lydia Baird farm to the J. R. Rush farm near Eureka; Coin Jackson from the Griffith filling station to the Baird farm; James Griffith to the station and Clifford Norris to the Griffith farm and Clifford expects to work for Carl Quick.

A new start finds Lyle Shaw moving from rooms at the Guy Staton home to the Dr. Fullerton residence near the depot; John Combs moving from the Fullerton residence to the former Mrs. Josie Miller property; Guy Staton from the former Miller property across the road to the Asa Mincks town farm which he recently bought; Ace Mincks to the old Geo. Benton farm north of town; Olin Murphy from the Benton farm to the former G. W. Brott farm southwest of town, (now owned by Roy Smith); Charley Russell from the Smith farm to the old Jake Saville homestead east of town; Earl Cochran from the Saville homestead to the W. T. Smith estate farm. Elmer Thompson who has lived on the Smith farm for the past two years had not found a suitable place at our last report.

Leland Saville is moving from the Caledonia neighborhood to the B. W. Shauer farm southwest of town which they recently purchased; Dayton Norris from the Shauer farm to the Willard Oliver farm; the Olivers moved several weeks ago to the old Oliver homestead east of town which they have bought.

Hugh Clark and family moved last week to Mt. Ayr from the former Chas. Jennings farm east of town and Floyd Comer is moving from the Floyd Stuart farm near Hickory Grove to the Jennings farm.

Mrs. Jerry Tackett who has been keeping house the past few weeks for L. D. Norris moved Monday to Mount Ayr and Marguerite Harris is keeping house for her grandfather.

Leslie Malaney is moving from the Mrs. T. J. Stephens property near the U. P. church to the Stephens property on highway No. 169 recently vacated by C. E. Smith and family who took rooms at the Tom Jameson home; and Mrs. Stephens who has spent the past year in Des Moines plans to return here in the near future.

John Burch is moving from the former Marion Shipley farm south of town to a farm near Clearfield and Charley Kobbe is moving from Moves—

Joe Klejch Announces For Supervisor:

The announcement of Joe Klejch as a candidate for the office of member of the board of supervisors of Ringgold county, term commencing January, 1940, subject to the will of the Republican voters as expressed at the June primary election, appears in this issue of the Herald.

Mr. Klejch is too well known to need a formal introduction to the voters of the county. He was born in Ringgold county, near Diagonal, and has lived in the county all his life. When he was 11 years of age his father died and upon him, as the oldest son in the family, developed the responsibility of carrying on the farm work. That he has been successful is indicated by the fact that he is one of the county's heavy taxpayers, and as a citizen and taxpayer he is interested in the county's business.

He has served as a member of the board of trustee and for eight years as assessor in Washington township, and the service rendered has been characterized by fidelity. Mr. Klejch is a man of mature judgement. His business experience has been such as to qualify him for service in public office and his neighbors testify as to his sterling qualities as a citizen. Should he be nominated and elected to the office of supervisor he will give to the duties of the office the same careful attention that is exercised in the management of his private business.

M. E. Church Notes:

Sunday School and worship services at Middle Fork and Kedding next Sunday morning. Our attendance last Sunday was alarming small. We hope there was a reason for it. But it is one of these things which causes deep concern on the part of the church minded people. This is no time to slow down and we don't believe that any of our people intend to and we are expecting a good crowd next Sunday.

Among the many things we pray for let's ask God for a real heart warming experience, "Did not our hearts burn within us, while he talked with us by the way."

The Twentieth Century Club met Friday with Lulu Edwards. The lesson study was on Washington. Guessing contests were enjoyed at the social hour. Refreshments were served by the hostess at the close of the meeting. Visitors were Mrs. Fertig, Ella Reynard and Mrs. Brott.

Beg Pardon:

The names of Mr. and Mrs. D. Burt Norris were unintentionally omitted from the list of those present at the birthday surprise for Mrs. Ida Norris as published last week.

New Cook Books To be Printed:

The Ladies Aid members of the M. E. church have compiled a new cook book and household hints which has been turned in to the Herald Office to be printed and made into books.

The new book will contain a lot of mighty fine cooking receipts which have been tried and proven by the ladies of this community whom we all know—bread, cake, cookies, pies, soups, puddings, meats, vegetables, salads, etc.

The book will also contain advertisements of business firms, will be about 5x8 inches in size and will probably have around 100 pages. It will take us some little while to finish the job.

The marriage of Doris Bea Griffith to E. N. Lucas was solemnized at 4:30 p. m. on Monday, February 28th at the First Methodist church in Des Moines. The single ring ceremony was performed by the Rev. C. C. Bacon.

Christian Science Churches
"God the Preserver of Man" will be the subject of the Lesson Sermon in all Churches of Christ, Scientist, on Sunday, June 11.

The Golden Text is from Psalm 36:6, "Thy righteousness is like the great mountains; thy judgments are a great deep: O Lord, thou preservest man and beast."

The Lesson-Sermon comprises quotations from the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

One of the Bible citations reads: "There is therefore now no condemnation to them which are in Christ Jesus, who walk not after the flesh, but after the Spirit. For the law of the Spirit of life in Christ Jesus hath made us free from the law of sin and death" (Romans 8: 1, 2).

Among the selections from the Christian Science textbook is the following: "The enslavement of man is not intimate. It will cease when man enters into his heritage of freedom, his given dominion over the material senses. Mortals will some day assert their freedom in the name of Almighty God" (p. 228).

Was It Patriotism Or Sentiment:

T. F. Armstrong of Bedford was a Lenox visitor Memorial Day and told us this story. About a year ago, he said, he was told the story of the death of a Union soldier along the Missouri line near Athlestan during the Civil War. According to the story this man was captured and was forced to dig a grave. He was then shot and buried in the grave he had just completed.

Mr. Armstrong said he doubted the story but investigated it by inquiring among the old timers who lived around Athlestan. They told him the story was true, gave him the man's name and even pointed out the spot where he is supposed to be buried. Mr. Armstrong said he stopped there on his way to Lenox that morning and placed flowers on the supposed grave. "I don't know" he said "whether it was patriotism or sentiment that caused me to do it.—Lenox Times Table.

We are thanking you, and the Lord for the wonderful crowd that attended the Sunday night services. Nearly every seat was taken and a good spirit was felt during the entire service. We also thank the children for their wonderful choir number, it was an inspiration to the whole congregation.

We had a number of new children out for both Sunday school and Church, for which we are Thankful. Our children of today will be men and women of tomorrow so let us, as men and women of today do all we can to help make the men and women of tomorrow.

Proverbs 22—6

Train up a child in the way he should go: and when he is old he will not depart from it.

Let us keep our children off the streets at night, and teach them to shun the appearance of evil, for we are living in the last days and let us not spare the rod and spoil the child but let us do what God would have us do for our children.

We love the children, and want to do all we can to teach them the right way. So send your children to Sunday School and church.

Robison Announces

For County Treasurer:

This issue of the Herald carries the formal announcement of B. R. Robison as a candidate for County Treasurer of Ringgold County, subject to the will of the Democratic voters at the primary election to be held June 8, 1940.

Mr. Robison, known to his personal acquaintances as Reah, was born on a farm in Decatur County and was graduated from the high school at Leon, after having completed the Normal Training course of study. He moved to the vicinity of Ellston, Ringgold County with his parents in the spring of 1917, after which he taught school in Ringgold and Decatur Counties for a period of six years. Abandoning the teaching profession he entered the Chillicothe business College, Chillicothe, Missouri where he completed a course of business Administration in the spring of 1926.

After completion of his business course, Mr. Robison was employed by the Process Corporation, Chicago, Illinois, and later advanced to the position of Credit Manager with the same firm. He worked for this firm until early in 1933, at which time he returned to Ellston, where he was engaged in farming for nearly two years. Also during 1934 he was Secretary-Treasurer for the Ellston Community Oil Company.

In 1935 Mr. Robison was chosen by O. K. Knight as deputy sheriff of Ringgold county and he served economically, efficiently and fearlessly in that position for a period of four years. Since January 1939 he has been engaged in the writing of life insurance. His business training and tested experience well qualify him for the office which he seeks.

In 1922 Mr. Robison was married to Miss Hanna Liles. They have three children, twin sons, Winton and Wendall, and a daughter, Norma. They all attend the Mt. Ayr public school. His announcement will be enthusiastically received by his personal acquaintances and large host of friends.

Mr. and Mrs. Burt Norris and Guy and Bert and Orville Norris and Mr. and Mrs. Clifford Norris were Sunday evening visitors at the Neil Norris home.

Ringgold County Represented At Des Moines Willkie Day

Willkie Day at Des Moines last Monday was another gathering of the republican clans of Iowa. From reports of a fairly unprejudiced nature it appears that the Ringgold County Republican Orginations succeeded in stealing the show.

Heading the procession to Des Moines was the car of Billy Finch, president of the county Willkie club. The car displayed a banner 3x9 feet on which George Farmer inscribed the words: "Mt. Ayr, Ringgold County—The Home of the First Willkie Club—Win with Willkie. In Mr. Finch's car as guests were Chas. J. Lewis and Chas. Lesan, chairman and secretary of the regular organization. On arriving in Des Moines the car was given parking space in front of the Savory hotel where it attracted attention and favorable comment throughout the day.

Chas. Hoover, county organizer of Willkie clubs, set about to organize the old Redding martial band and accomplished the task in short order. The band proved to be the hit of the day and kept things lively. Members of the band were Art Derickson and Billy Wilson with snare drums, Fred Morgan and Floyd Fertig with fifes and Steve Gartin pounding away on the bass drum. Mrs. I. J. Dalbey did her part by costuming the band with the "Spirit of 1776. Richard Prentis carried the old flag and the county emblem, and the whole state knew that Ringgold county had come to town.

At the dinner served for the regular organization members at which Mr. Willkie spoke, there were present Chairman Chas. Lewis, Vice-Chairman Irene Wilson and Secretary Chas. Lesan.

At the dinner provided for the Willkie club organization, which was also addressed by Mr. Willkie, there were present Wm. Finch and Chas. Hoover. At this scene a special table was assigned to Mr. Hoover and Mrs. Dalbey and the members of their band. As Mr. Willkie entered the room and as he departed he was cheered by the strains of the bands inspiring music.

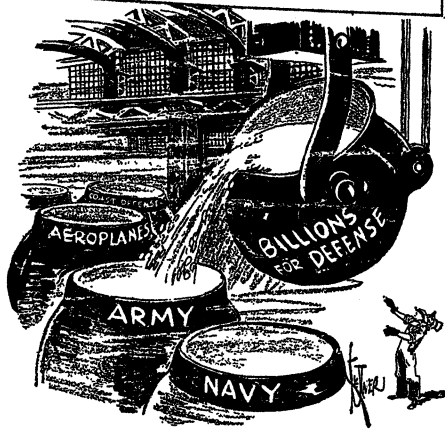

Others present from the county were J. B. Currie, Anne Prentis Velma Finch, Mr. and Mrs. Earl Hoover, Mr. and Mrs. Grant Hayes, Frank F. Wilson, Mr. and Mrs. W. T. Timby, Mrs. Roy Spurrier, Mr. and Mrs. X. T. Prentis, Mr. and Mrs. H. H. Tedford of Mt. Ayr, and Manson Heron of Redding.

Facts vs. Fancies

By THE W. C. T. U.
DICTATORSHIP'S propaganda policy, as told in "Mein Kampf," is that a colossal lie often-repeated will convince the poor suckers.

The brewers evidently have a similar policy of "reiteration of misrepresentation". Their propaganda campaign throughout the past year was a clever attempt designed to convince John Q. Public that repeal has solved the tax problem, the labor problem, the farm problem, and the education problem.

The American public, especially the small city and rural resident, is different though. While clever arguments may convince him momentarily, in the long run he will listen only to facts. And the facts indicate that the brewers have overstepped themselves.

In the Factory.

Until the war-stimulated boom of the fall of 1939 there were as many men out of work as there were in 1933, hence the brewers' claim the beer has "created one million jobs in 100 industries" cannot be accurate. Beer's annual output of 5 million barrels has taken from the laboring man a great part of the two billion dollars now spent each year for beer. Yet, the industry is biting the hand that feeds it by increasing unemployment through depleting efficiency and incapacitating many laborers.

The brewers never have tried to claim that the beer habit is an asset to a man looking for a job. Yet, it has been estimated, that there are from five to 10 patrons of every tavern or bar whose jobs are in jeopardy because of their steady drinking—and there are 436,000 bars in the United States.

Christian Science Churches

"Spirit" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 11.

The Golden Text is from Psalms 143:10, "Teach me to do thy will; for thou art my God: thy spirit is good; lead me into the land of uprightness." The Lesson-Sermon contains quotations from the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

One of the Bible citations reads: "For we know that if our earthly house of this tabernacle were dissolved, we have a building of God, an house not made with hands, eternal in the heavens. Now he that hath wrought us for the selfsame thing is God, who also hath given unto us the earnest of the Spirit" (II Cor. 5:1, 5).

Among the selections from the Christian Science textbook is the following: "As God is substance and man is the divine image and likeness, man should wish for, and in reality has, only the substance of good, the substance of Spirit, not matter" (p. 301).

NEW! "BACTERIOSTAT" FEMININE HYGIENE

now finding great favor among women...

Many doctors recommend regular use of douches as a precautionary measure for women who wish to be clean and healthy—for women troubled by itching odor or discharge. Some products may be harmful to delicate tissues. But not Lydia Pinkham's Sanative Wash. It is gentle and safe because it's NOT a harmful germicide. Instead—it's a mighty effective "antibacterial" (the modern term) that only discourages bacterial growth and infection but thoroughly cleanses, deodorizes. Very soothing—relieves all irritations and discharges and has tonic effect on delicate membranes. Inexpensive! All druggists.

MOVIE STAR JOINS U. S. NAVY

Ensign Wayne Morris Seeks Wings

Wayne Morris, recent star of "I Wanted Wings," became a member of Uncle Sam's Navy in May, 1941, when he was appointed to the rank of Ensign.

When asked what he thought of the United States Navy, Morris said, "I think every man who is considering joining a military service should look into the 'chance of a lifetime' which the Navy offers to get into the big pay field of the future—aviation. In the Navy you can attend the finest flight training schools in the world, and receive instruction from

Navy pilots who introduced dive bombing, aircraft carriers and catapult take-offs to the rest of the world. Also, there are opportunities in Naval Aviation for men who don't want to fly. They can be trained as aviation machinists, metalsmiths, photographers, observers, or they can receive instruction in many other trades. It's a great life in the Navy."

Ensign Wayne Morris is pictured here in his line of duty as a member of the Naval Aviation Cadet Selection Board at the Long Beach Naval Reserve Air Base.

Family of William Penn

Had Military Background

Strange as it may seem, William Penn came from a military family and in his youth was not averse to drawing a sword himself when the occasion warranted it. His father, for whom he was named, was the doughty and valiant Admiral William Penn, who joined his sea-mind father and was a captain before he was 21. He later became a rear admiral and vice admiral of Ireland and, in 1682, vice admiral of England. He was an English general in the First Dutch war, chosen a great captain commander under the duke of York, who afterwards became James the Second, says the National Republic.

The future proprietor of Pennsylvania, with such a naval and military background, was born in London, October 14, 1644. His youth was not unlike that of other English boys in a similar station of life, but he possessed a strong religious streak which his militant father could not understand. He had inherited it from his gentle mother, who was the daughter of a rich Rotterdam merchant, and this parent understood, if she did not strongly encourage, the religious side of his nature.

Young Penn started his education as a boy in the English school at Chigwell and then entered a private school in London. When the family went to Ireland, because of his father's duties there, William studied under a private tutor as was deemed proper for a youth of his rank. Later he entered Christ Church college in Oxford, where he made the acquaintance of Robert Spencer and John Locke, who were to be his friends in later life.

In his studies the future colonist specialized in history and theology but he did not neglect the languages. He was proficient in the French, Dutch and Italian. During his career in Oxford young Penn heard Thomas Lee preach. He was a follower of George Fox and an eloquent and persuasive talker. The religious side of the youth immediately became uppermost and the zeal of reform burned within him.

Copper for Black Hair

Black hair in animals appears to be due to the presence of copper in the skin which acts as a catalytic agent. The graying of hair of experimental animals has been correlated with lack of this metal in the diet, and in other experiments the pigmentation of hair was restored by including copper in the diet. Dr. F. J. Gortner, of Delit, Holland, reports that he tried a large number of other metals without obtaining the hair coloration. The Journal of the American Medical Association, in commenting on these experiments, reaches the opinion that copper may be related to the processes of pigment formation in animals. Whether there is any hope for eliminating the premature graying of hair on human heads must await more extended experimental work.

The girls basketball team won their sixth consecutive game last Thursday night when they walked away with 36 to 18 from Delphos.

Those who didn't attend missed a lively game, really full of action. The girls fought hard and cooperatively. The line-up at the start was—Alice Adair, Eloise Staton, Eva Saville, Dorothy Herren, Bulah Overman and Pauline Comer. Some were in the entire game and were a little tired when it was over. Dorothy Herren came through with a clever little way of dropping the ball into the basket quite often. Betty Brott, ex-Redding player, was on the Delphos team, once found herself out of position and I guess in position to play in Redding's, a matter of habit.

The boys' team played a good game but 27 to 42. The line-up—K. Walker, H. Quick, V. Howie, C. Parker, George Saville. (From the writeup one would gather the sport writer undoubtedly must be more interested in girls' games.

The Miller Children.

Mrs. Kimball and Mrs. Worthington, dressed soberly and wearing their best black gloves, walked along the stony country road back toward Sophia Hardy's farm, to pay their visit of condolence.

"How do you reckon she'll be bearing up?" Mrs. Kimball asked Mrs. Worthington. Both ladies wore their most solemn, funereal expressions.

"A mighty severe blow," Mrs. Worthington said. "Mighty severe. To lose your only son, the mainstay of your declining years. And such a dreadful death, too—to go down with a ship. Mercy!"

"The first of our boys from Hand County to go, too," Mrs. Kimball said, mournfully. "I wouldn't blame Sophia Hardy for feeling right bitter."

They stood on the simple stone doorstep, with downcast eyes, getting themselves into the proper commiserative mood.

"Come in!" The voice was brisk and cordial. They looked up in surprise. Sophia herself had come to the door. As they followed her into the parlor they exchanged glances, with eyebrows lifted. Sophia was not even in mourning. The parlor shades were not even drawn.

"It's nice of you to come," Sophia said. "Do sit down."

"We came," Mrs. Kimball said almost reprovingly, "to tell you that our hearts are bleeding for you in your great loss."

"We know how lonely you must be out here," Mrs. Worthington said. "With nothing to take your mind off . . ."

"Oh, I keep busy," Sophia said. "I've just finished applying for the Government insurance on Tom's life."

The visiting ladies could not resist a shocked glance at one another.

"I want to get it right away," Sophia said. "So I can put it into War Bonds. My boy hasn't finished fighting yet, not by a long shot."

The ladies were so occupied with feeling horrified, so titillated by this callous behaviour in a bereaved mother—that neither of them noticed Sophia's hands. Under the folds of her clean print dress, against the seat of her chair, they were tightly clenched.

You Can Never Tell:

Man is sick
Man dies
Man is buried
Man turns to dust
Man turns to soil
Grass grows from soil
Cow eats grass
Moral: Never kick cow; she may be your uncle.

Words are like people. They are born, grow up, get married, have children, and finally die. Sometimes they remain in their native country for ever. Sometimes they migrate to other lands. By associating with good companions, words acquire caste. By mingling with phases of low degree, words lose their respectability. In order to conform to style or necessity they may alter their appearance. In order to resist their fluidity of change, they may conserve old fashioned mannerisms. Times of stress bring forth new leaders. Great moments develop great words to keep their memory imperishable. Every invention and discovery is handed down to posterity with a word. Every idea and emotion of the heart of man experiences is transfigured and embalmed in the rhythmic dance of words set to the cadence of the senses. Words are like people. Once you make their acquaintance—and win their friendship they remain loyal. Therefore learn to respect and employ words, so that they will always be ready like Aladdin's lamp to weave whatever magic your mind desires.

American Red Cross War Fund

We are asked to raise \$180.00 in the Redding school district.

The sacrifices that are needed in order to win the war are apparent to us all.

The government's pleas to conserve gas and rubber, the economics required to avoid inflation, the necessity of rationing many essential commodities, all these have become vital in the minds of our people.

Necessity has awakened us to the size of the task before us, and regardless of creed, color or political convictions, our honest differences of opinion are being dissipated, before the issue that now confronts us. This glory of democracy, that a man may think as he will, speak as he will, vote as he will, and worship God in his own way; yet in the hour of peril to the State, that which is for the greatest good of all, is not only his most compelling thought, but the strongest prompting of his heart. "Man was not born for himself alone, but for his country."

The support of the Red Cross is drawn from large numbers of people, who give voluntarily, according to their financial ability.

"We can always live on less, when we have more to live for."

What You Buy With WAR BONDS

That new cooking range, whether it be gas, electric or otherwise, is something to look forward to when the War is won. But you can start saving now to buy it. Put a definite amount every payday, ten percent of your pay check . . . into War Bonds today.

When your Bonds mature you will have the money ready for that new range. You will have made a good investment, getting back \$4 for every \$3. And your purchase of War Bonds is helping that boy, husband or sweetheart on the fighting front.

What You Buy With WAR BONDS

The ordinary machine gun is too cumbersome for our Marines, especially for parachute troops. So the Marines have adopted new models of the Reising sub-machine gun, a .45-caliber weapon.

The new gun used by the paratroops is a compact model with a pistol grip and a steel-frame stock which folds out of the way when not in use. You can help buy these for our Boys in the Solomons and elsewhere with your purchase of War Bonds. Join the Payroll Savings Plan and let's "Top that ten percent."

Will Americans Be More Tender With Their Money Than Lives of Their Sons

Washington, D. C.—A blunt challenge—whether Americans will be more tender with their money than with the lives of their sons—confronts U. S. citizens as they prepare to meet the appeal of the government to put an additional 13 billion dollars into the fight in the next three weeks.

American dollars which run off to some cozy shelter to hide while American boys are dying to defend our cities and towns from destruction and invasion will face a rising demand from all classes of patriotic citizens to come out and fight.

Millions of workers who now are buying War Bonds regularly out of current income must lend extra money to their government during the Second War Loan campaign (which started April 12).

In recognition of the spirit of sacrifice which is sweeping over the land as our troops swing into offensive action in Africa and await the signal for a landing in Europe, the Treasury Department is offering a series of government bonds to fit every pocketbook.

No matter whether Americans buy the familiar Series E Bonds or 2½ per cent bonds or 2 per cent bonds or tax certificates, they will be doing their part to make the Second War Loan drive a success.

Consumer Spending Too High.
Consumer spending in 1942 was

much too high to meet the war situation of 1943. Last year more than \$2 billion dollars of our soaring national income went to feed the desires of Americans for clothes, recreation, foods and luxuries. As these items grow scarcer, more of our income must be diverted from such expenses into government bonds.

During 1942 millions of our fathers, sons, relatives and friends were in training here and abroad. Some were already in action. Casualties were beginning to bite into every community. War Bonds became a vital link between the home and fighting fronts.

Today sacrifice has become a way of life for America's fighting men. Civilian spending on the 1942 scale must go out the window if the home folks are to attempt to match the heroism of our boys at the front.

Not every American can take his place in a bomber or in a foxhole or on a fighting ship but he can fire away at the enemy by lending money to the government.

The forgetful Mrs. Highgate and her mistakes bring about a situation for rib-cracking laughter much to the chargin of her daughter, Nancy. Philip, the dutiful butler, in his stern way makes love to Florence, the maid, who is seriously affected with "pocketitis". Eagle Jones, the human blood-hound, chases his man frantically. On Toyence, John Florenz, Tom Lawrence, the best of painters, goes through some hair-raising experiences at painting Mrs. Highgate's picture. Mary, the cook, only misses committing murder by a hair's breadth because poor Arthur, the yard boy, is so rapid a runner, and a good dodger.

CARRY a message to Garcia.
Elbert Hubbard

At the beginning of the Spanish-American war Andrew Sumner Rowan pushed through Congress legislation for three weeks to bring a message from President McKinley to the insurgent leader, Garcia, then in the mountains out of reach by mail or wire. Elbert Hubbard made the phrase "Carry a Message to Garcia" immortal in his magazine, the *Philistine*.

Presents Flag to U. P. Church

Services, dedicating a large American flag presented to the United Presbyterian Church in memory of Alex Thompson, by his family, Florence Thompson and Lucy and Charles Fredrick, was held at the church Sunday morning, May 2nd.

The dedication part of the program was as follows:

We come today to dedicate a Flag of our country to be placed in the front of our church. It is through the kindness of Mrs. Florence M. Thompson, who was at one time a member of this congregation. We are very grateful and assure her that this flag is appreciated.

(Flag unfurled and placed)

Minister: "With malice toward none, with charity for all, with firmness in the right as God gives us to see the right", let us strive to do the work that He has given us to do for the Church and State.

People: Lord God of Hosts be with us yet, lest we forget, lest we forget.

Minister: Almighty God through whose Providence this nation was established, and souls of men have been lead forward in liberty, peace and security, we dedicate this flag to our Nation.

People: Lord God of Hosts be with us yet, lest we forget, lest we forget.

Minister: Almighty God we praise Thee for those who have given all, that this flag might wave over this land of ours, that it might proclaim truth and justice everywhere, that it might minister to all, unspotted with the world's stain of malice, greed and Godless ambition.

People: In Thy Holy name and to Thy honor and glory do we dedicate this flag.

(Prayer of dedication, all remain standing.)

Notice

There has been complaint about livestock running at large within the corporation of Redding.

In this connection, we wish to call to the attention of all citizens that there is a town ordinance making it unlawful for any person to allow livestock to run at large in town.

What You Buy With WAR BONDS

Refrigerators are out for the duration. Manufacturers have now tooled their plants for production of war materials. Common-sense folk, however, are saving now, not spending, and building up a fund for purchase of refrigerators and other domestic needs through investment in U. S. War Bonds.

Your Money put into War Bonds today will bring you back \$4 for \$3 at maturity. So start saving for those domestic needs when you will be permitted to buy them. Join the Payroll Savings Plan at your office or factory and let's all "Top that Ten Percent." U. S. Treasury Department

We are in receipt of an article from Attorney Nelson A. Mason, Bismark, N D, dealing with early American discoveries of one Leif Erick's son, Norwegian. It will be particularly interesting to the people of N Dakota because probably 50% of the people in that state are Scandinavian which takes in Norwegians, Swedes, Danes and Icelanders; one third of the population is Norwegians and a similar number German. Mr. Mason speaks both languages, and so his story will be very interesting to most of the people of his state, more interesting than fiction, because it has to do with facts, showing what the Norwegians did for that country then.

* What You Buy With WAR BONDS *

Battle Wagons

When Japan attacked at Pearl Harbor we had 17 battleships in service and 15 building. We were making preparations but the war did not wait. These 32 battle wagons cost American taxpayers three billion dollars for a two ocean navy. The war seemed far away then.

Now fifty million Americans have a personal stake in this war. It has been brought home to them. That's why everyone is increasing purchases of War Bonds.

Nationwide Molly Pitcher Tag Day

Washington, D. C.—On August 4th, Molly Pitcher is stepping out of the pages of American history to sell War Bonds and Stamps. The gal who carried water to thirsty soldiers during the blistering Revolutionary Battle of Monmouth and took over her husband's cannon when he was wounded, has long been a symbol of the heroism of American women.

In her honor, brigades of modern Molly Pitchers will take their stands on nation-wide Molly Pitcher Day at street corners, building entrances and in public places to sell the bonds and stamps that back up our modern fighting men. A red-white-and-blue Molly Pitcher Tag will be given to everyone who purchases a bond or stamp on that day. Members of the American Legion Auxiliary, and of the Independent Food Distributors Council unit of Molly Pitchers, will aid and augment local Women's War Savings Staffs to make up the volunteer sales force. They will use water pitchers to hold their supplies of tags and War Stamps. The slogan on the tags will read "Fill the Pitcher with Bonds and Stamps on Molly Pitcher Day," and the goal of the sales force will be to "tag" the total population.

Important Information School Transportation

Following is excerpts from instructions received by Supt. J. N. King from the ODT and State Department of Public Instruction, regarding School Transportation.

Every school bus in the nation is required by Gen. Order ODT to have a Cer. of War Necessity fixing the maximum number of miles of operation, and authorizing necessary fuel, parts, tires, and tubes. These Certificates will be continuously reviewed and revised to meet only the basic minimum transportation needs. Adherence to policies adopted following many conferences with school authorities will be the basis for determining such minimum needs.

Bus routes shall be so arranged that the maximum number of pupils can be transported with the minimum number of bus miles. Side trips off the main trunk route and mileage without pupils shall be eliminated wherever practicable.

Transportation shall be provided only for students, teachers, or other school employees who would have to walk more than 2 miles to a school or more than 1 1/2 miles to a school bus truck route. Exceptions may be made for those within 2 miles residing along roads over which buses must pass, if by serving them no extra miles are driven and no additional vehicles are used. Exception should be made for the physically handicapped or those who otherwise would be subjected to extreme danger or physical hardship.

On Mar. 15, ODT regulations forbids the use of school buses to transport athletic teams, students on excursion trips. This order limits the use of buses to the transportation of students to and from schools, or by special arrangements the transportation of war workers to and from work.

Schools using private cars to transport students should observe the following. If a private car transports 8 persons it must have a Certificate of War Necessity and the routes for it must conform to ODT regulations. (This ruling changed. Private cars do not need ODT Certificate now, but Norris, S. Supervisor, says ruling may be changed within a week.)

All schools in the State must file reorganized bus routes and applications through the Coordinator at the State Dept. of Public Instructions.

"Mind" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 22.

The Golden Text is from Psalms 147:5, "Great is our Lord, and of great power: his understanding is infinite."

The Lesson-Sermon comprises quotations from the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

One of the Bible citations reads: "Thus saith the Lord the King of Israel, and his redeemer the Lord of hosts; I am the first, and I am the last; and beside me there is no God. Fear ye not, neither be afraid: have not I told thee from that time, and have declared it? ye are even my witnesses. Is there a God beside Me? yea, there is no God; I know not any" (Isa. 44:6, 8).

Among the selections from the Christian Science textbook is the following: "Mind. The only I, or Us; the only Spirit, Soul, divine Principle, sub-

BLACK MARKETS spring up in the trail of shortages.

There are no Black Markets in electricity because there are no shortages.

War production calls for tremendous amounts of electric power. But every industrial demand has been met — and every essential civilian need has been satisfied.

We're proud of the job our industry has

done under experienced business management. But one word of caution is in order. Electricity depends, in part, upon fuel and transportation. Don't waste electricity just because it isn't rationed!

A Long Letter of interest From Hawaii

The following letter received from Carl Holland in Army service in Hawaii, should be of interest to most of our readers:

Hawaii, U. S. A.

Aloha!

To the Folks Back Home:

OK—here it comes—that long newsey letter you've asked for and I've never had time to write. Uncle Sam keeps us pretty busy looking after the Japs, you know. And then, you've heard of Hawaii being the home of beautiful flowers and hula girls. It is and I'm really busy, especially on moonlight nights.

You've asked about the grass shacks and if we live in them. That's tourist bureau balogney—there just ain't none! The only ones are those in the Bishop Museum and one up in Monoa Valley where Robert Louis Stevenson did his writing in early days. It is quaint and in a truly tropical setting. I can imagine Robert swinging a mean pen up there, surrounded by swishing hula maidens in hula skirts, by the way, are not really made of grass. Native girls take long "ti" leaves, shred them into strips, then drape them around the part where they shake the most—then go to work! And then I know why I came to Honolulu!

A large percentage of Honolulu is in uniform—white or khaki—and how the boys who still wear civies are envied when a hot day comes. Informal dress prevails for all but service men—aloha shirts of wild colors and wilder designs, slack trousers, sandals or bare feet, no hats or neckties—what a life!

Yes, I'm learning to talk Hawaiian. You have to in self defense. We are malihinis (new comers until we are here long enough to become old timers or "kamaaina"). White people are called "haoles", the Chinese are "pake", Hawaiians are "kanakas", the Japanese "hapani", (that is in polite society!) We're never done or finished—we're simply "pau". "Pilikia" is a word many a budding works overtime—it means trouble, and how some buck privates get into "pilikia". A hole in your sock is "puka", to wear your hat at an angle is "kapakahi" and to have little under your hat is to be "pupule". Good Hawaiian whisky is "oke", short for okolehoa—which accounts for "okole maluna" which means

College Who's Who Lists Mary McGrew

The following clipping taken from the U. I. U. College paper concerning the daughter of Dr. and Mrs. Fred McGrew of Hawkeye, former residents of Redding, will be of interest to our readers:

"Who's Who in American Colleges for the current year contains the names of six senior students at Upper Iowa University, of whom two are Betty Northrop, West Union and Mary McGrew, Hawkeye."

The book, published each year at the University of Alabama, contains sketches of the outstanding students at all American colleges. The choice is made by the faculty on the basis of scholarship, character, leadership, and probability of success.

Miss McGrew is a member of the Kappa Eta Beta sorority, of which she was president last year. She is president of the senior class this year. She joined Gamma Delta Kappa this year. She also has participated in choir.

Cpl. Carl Holland Writes From the Ruyukyus Isls.

Ruyukyus Islands, August 5, 1945.

Dear Friends:

Just a few lines to let you know about where I am, but I could tell you much quicker where I have been than where I have. Very few places I haven't been over here and for sure, not much over two more logical places I can go, is my guess, (ha.)

I like the island fine, really think it is the best island I have been in. The climate is grand, very cool at night and always a good breeze from the ocean. In the heat of the day it's very hot except when cloudy. We do get storms here, wind and rain from the sea, really pours for a day or more at a time. When the island is repaired and built up it will be a wonderful place to be from, (ha.)

We have had one ration of beer here, you see it's water, or else, have a P. X, get fresh meat maybe twice a week, then the rest of the time it's dehydrated, or canned food. What-a-meal. This is one place money is of no value to you, except in the P. I. and for envelopes. They just pay us ten dollars a month that's plenty. They are trying to keep down inflation, and I do believe it's a very good thing. Should have done it in the Philippines, those people really hold you up. I know the Japs didn't treat them like the Americans have; if they wanted anything they just took it.

Civilians here are located in camps or villages, they can't understand really what is going on, never saw so much equipment in their lives before. They raise rice and sweet potatoes, the women do the work in the fields and the men are guards or boss. It seems funny, really very odd. These women can carry more on their head than I can lift up, it seems impossible, they carry it for hours and never take it off when they rest. They have nice paddies about the size of a garden all over the village. When the rice is growing it's covered with water most of the time, and it gets about knee high, similar to oats the grain is above ground. I sure wouldn't take a lot for what I have seen in the Pacific, but I wouldn't give a penny for any more.

Thirty-eight months overseas is a long time and the past ten months hasn't been a picnic by any means. I have 78 points, just enough for the duration unless things change in the near future. Some of the boys are being discharged with lots of points, 50 or more. My guess is that I'll put in more than 45 months before I get home; sure isn't justice.

Obituary—Mrs. H. S. Abarr

Minnie M. Waugh, daughter of Lewis B. and Mary L. Waugh was born February 15, 1876, near Redding, Iowa and passed away August 3, 1945 at Redding at the age of 69 years, 5 months and 18 days.

On April 1, 1903 she was united in marriage to Harlan S. Abarr and moved to a farm near Redding where they spent their entire wedded life, until a year and a half ago when they moved to Redding.

Nine children were born to this union, two of whom preceded her in death: Kenneth C. on Sept. 5, 1924 and D. C. on Dec. 18, 1924.

At an early age she accepted Christ as her Savior and united with the Methodist church, and lived a true Christian throughout her life.

She was a devoted wife and mother, finding her greatest happiness in caring for her home and family; a good friend and neighbor, and in her gentle quiet way, was always ready to help those about her.

She will be greatly missed by all who knew and loved her.

She is survived by her husband, 7 sons—Quentin of Des Moines, Emile of Knoxville, Barton in the U. S. Army, Lyle of Sigourney, Joe of the U. S. Navy, John of Redding, and William also of the U. S. Army. Ten grandchildren, three sisters—Mrs. Clyda Hoffman and Mrs. Florence Ramsey of Redding and Mrs. Olive Miller of Blockton; a number of nieces and nephews and a host of friends. One brother, Bert Waugh, preceded her in death.

She was a patient sufferer throughout her long illness, and her faith and prayers were rewarded during her last days by having her three boys home from services overseas.

Funeral services were held Tuesday afternoon, Aug. 7, from the Methodist church in Redding, conducted by Rev. Crooks, of Mt. Ayr, assisted by Rev. Chambers, and interment was made in the Redding cemetery.

Card of Thanks

We wish to thank our neighbors, friends and relatives for their many kind deeds and words of sympathy extended during the long illness and at the death of our wife and mother, H. S. Abarr and Children.

Word from California

We are in receipt of renewal subscription from R. L. Haah of Dinuba, California, for which we say thanks.

He says, we still like to read the old home paper, although there are lots of names in it that are not familiar to us. In the short time we have been gone it is hard to realize that there could be so many changes.

We have no complaint here in our new home and we are both well and work all the time, my wife in fruit and I at home.

We hope you and Mrs. Main are well and all of our friends back there.

With best regards,
R. L. Haah,

One's patriotism must not slump. Of course there will be special days through the year when love of country will get special chance for emphasis. It's a matter of keeping alive memories of the past and an opportunity to teach a bit of important history to the growing young life of the local church. Our country's birthday comes in for proper celebration every 4th of July. Every Christmas in every Christian church is celebrated as the birthday of our Savior. Every Methodist of every local Methodist church should know his Church's birthday goes back to the Christian Conference of 1784, when our government was just past 8 years old. The threat of separation over slavery was the cause of the civil war. To the Methodist Church's separation in 1844 over slavery may be a very great part of the cause of that war; for had the Methodist church remained loyal there may have been no civil war.

ADVERTISING FOR GOD

—No. 33—

Read Heb. 10, 25

Some have forsaken the habit or custom of going to church to their own great loss. All folks, with very rare exceptions, like to get together. Many lives would take on new interest and new interests if they would again assemble with folks who meet together for worship and good fellowship. At best life has many, too many lonely hours. God has broadcast that where two or three are gathered together in His name that He is there too. Perhaps one of our most common needs is to remember God is always at church even though only few be there or only strangers to us who go. And it helps to consciously be in God's presence. Going to church to be in God's presence with others will not fail to bring a blessing. Try it again who once did run the Christian race of life.
